The Element Encyclopedia Of 20,000 Dreams: The Ultimate A-Z To Interpret The Secrets Of Your Dreams

Synopsis

Unlock the secrets of your dreamlife with the latest in the hugely popular series of 'Element Encyclopedias'. This is the most comprehensive A-Z reference book on dream interpretation you'll ever find. Have you ever wondered what your dreams are trying to tell you? Sixth in the series of 'Element Encyclopedias', this is the definitive guide to dream interpretation. Packed with fascinating information, The Element Encyclopedia of 20,000 Dreams is an extensive collection of the symbols that appear in your dreams and how to interpret what they mean for you. Dreams are universal and every culture throughout history has tried to unlock the secrets of the unconscious mind through the interpretation of dreams. Understanding the unique meanings of dream symbols can help in the way you experience your waking everyday lives and even foretell the future. Divided into easy-to-follow A-Z themed sections, from Animals, Conflict and Foreign Countries, to Monsters, Sex and Weather, this book holds compelling definitions of thousands of dream symbols that can also be found in the quick-reference Dream Directory at the back of the book. Find out about the variety of dream types - such as cathartic, lucid and precognitive dreams - plus dreams in history and folklore. Discover different traditions of dream interpretation and dream theorists - for example, analytical psychologist Carl Jung thought that cats in dreams represent the secretive side of a person's nature, and they can also denote a desire for sex or a warning of hidden dangers. Whatever your dream symbol or experience, you'll find an amazing treasure trove of interpretations here in The Element Encyclopedia of 20,000 Dreams. --This text refers to the Digital edition.

This book is impressive and quite large, very informative for a Dream interpretation book. At first it was a bit confusing looking up certain Dreams, it isn't an A-Z type book, but once you get familiar with the way it's structured, you can really find helpful interpretations of just about anything related to you (or others) Dreams...fascinating stuff!!!

The spine was loose but nothing a little hot glue couldn't fix. Great price for a typically expensive book.

It provides good descriptions, has almost everything you could possibly dream about. Just don't look up too many dreams and analyze them too much or you'll end up losing some fun. Dreams are made to help us relax and wind down from the previous stresses of the day. Analyzing all your dreams takes the fun out of dreaming. Now Nightmares, those are good for interpreting. They show what your sub-conscious is stressed about or the cautions about someone or something that might have recently happened in your life. All-in-all it is a very good dictionary to have. It even has a very good index in the back.

This is just a fun book. I bought it for my boyfriend as a surprise because he would always ask what I had dreamed about the night before. It's fun to flip through and appreciate the creativity that went into writing this. Pretty much ANY dream you can have is reported in this book. Read this with an open mind and you will be deeply entertained.

Best dream book I have EVER found. Would recommend the soft cover. The hard cover seemed to have a binding problem and pages fall out, not just mine, but a friend who got hers elsewhere and even the copy the library had. Still I will not let it go. I'll put the pages in page covers and a ring binder.

I love this book. It's such a cool reference!

Explains dreams fully. Just what I was looking for.

Always analyzing my dreams. This book is awesome!! It is huge and full of great information. It is a beautiful book too. It was supposedly used. I can't tell. It is a gorgeous edition. The definitions of dreams are informative. It was a pleasure to receive this stunning book. Love it!!
