Customer Reviews

There are a lot of really good recipes in this book. I love slow cooker recipes because it gives me time for other things

Lots of quinoa and soup recipes in this book which i really like, they're so easy to cook and are very healthy. Lot's of different flavours to chhose from: savoury/asian/curry - yum! :)

I use the slow cooker a lot and more in the winter . Am looking forward to making some of the recipes this winter.

To much use of canned foods.

This author has recently plagiarized recipes and pictures by stealing from other peoples websites and publishing them in at least one of his cookbook. He's also published an extremely high number of books in a couple of months which makes me wonder how much is really his own work, if any.
