These were AWESOME. Sadly, I got this as a gift for my sister (also an English teacher). Some of them are TOTALLY appropriate and could be colored and framed in the classroom. Others maybe your home office (not as appropriate).The paper is solid. It isn't cardstock, but sturdier than your

traditional paper. They're all backed so none of the childhood struggles of "if I frame this side, then no one can see that side" A lot of them have the traditional coloring book elements: swirls, flowers, etc. But some are just bold print with fun phrases. I was a little bummed that she liked it because I was looking forward to coloring in some of these.

This is hilarious!! I love it! I've worked in the schools with teachers for thirteen years as a school social worker. When we get stressed out and are trying to problem solve during a brainstorming session, sometimes we take out our collection of adult coloring books and start coloring away. It's become a tradition now, and it's really catching on. It's a great way to relieve stress while still being able to be present and part of the conversation. It gets the "creative juices" flowing, so to speak. (I hate that phrase, but it describes it perfectly). Anyway, I thought this would be a funny alternate to our usual nature and geometric design coloring books. It's hysterical! It's a "chalk board" book, so it has much less to color and less detail on each page. But it comes with both "snarky" slogans and some inspirational phrases too. They're designed as if they are written on the chalkboard, so not the usual flowers, swirls, and woodland creature themed coloring pages. The book is 8x11, which you want to pay attention to because many of the other coloring books in this price range are not--they make em smaller to save money, which is annoying. And, there are quite a few pages, which is another thing companies will try to rip you off with. The drawings are great quality. And creative. I'm quite impressed. I highly recommend this for any educator. It would make A great gift too. I was able to purchase this item exchange for my honest and unbiased review information so you can determine whether or not this product is right for you. I try to keep in mind the average price to the consumer and value the item accordingly rather than based on what they paid for it. Happy shopping!

Teachers Rock! What a fun and zany book with cute teacher humor to color. I got the book in a very quick time with my prime account. The paper is nice and I can use my sharpies and all ink pens and they make coloring pages great....nice quality.

I bought this for a friend who was graduating college to be a teacher. (I also recently graduated for the same field). I absolutely loved all of the drawings in here! They were snarky and funny and meaningful. If you have a teacher or a teacher friend this will be the perfect gift for them. I'm going to buy one for myself now too!

I gave this to my daughters daycare teachers when she graduated. They loved it and commented how they loved the snarky book. These ladies had a great sense of humor, so know your audience. It's cute and funny. Really gets into the details of a teachers life.

This is one of my favorite coloring books because the pages are thick and single-sided so colors don't bleed through to the other side. There's also different kinds of patterns (some good for thick markers and others for more detailed work). I only wish they had more options in this snarky coloring book line.

This was an end of year gift for our teacher. I saw the cover and immediately thought of her. My son gets really frustrated at random situations (when people are just acting crazy) she taught him to meditate and breathe through the frustrations. It's awesome and definitely snarky and goofy like her!

Best gift for any teacher! I took this to work and showed it to all my teacher friends and we couldn't stop laughing. Every one of them said it was the best thing ever! If you are looking for a great gift for a teacher or you are a teacher yourself buy this book!
