AURAS: How To See, Feel & Know (Full Color Ed.)

Synopsis

"Auras: How to See, Feel & Know," is like three books in one!1. It's an information packed, full color, complete training manual with 17 time tested exercises and 47 photos and illustrations to help you quickly be able to see Auras in vibrant color! It is the only full color book on auras available.2. An entertaining read as Embrosewyn recalls his early childhood and high school experiences seeing auras, and the often humorous reactions by everyone from his mother to his friends when he told them what he saw.3. Plus, a fascinating chapter on body language. Embrosewyn teaches in his workshops to not just rely on your interpretation of the aura alone, but to confirm it with another indicator such as body language."Auras: How to See, Feel & Know," goes in depth with thorough explanations and great pictures to show you all the common body language indicators used to confirm what someone's aura is showing you. Auras includes: 17 dynamic eye exercises to help you rapidly begin to see the beautiful world of auras! 47 full color pictures and illustrations (in the Kindle or Full Color print edition). Anyone with vision in both eyes can begin seeing vividly colored auras around any person with just 5 minutes of practice! Learn how to: See the 7 layers of the aura using Embrosewyn's pioneering technique Understand the meaning of the patterns and shadows observed in the layers Train your eyes to instantly switch back and forth from aura to normal vision Understand the meaning and nuances of every color of the rainbow in an aura Use your aura as a shield against negative energy or people Power up your aura to have greater achievement in any endeavor Interpret body language to confirm observations of the aura Cut negative energy cords to disharmonious people Understand health conditions and ailments through the aura The secret to aura sight is to retrain the focusing parts of your eyes to see things that have always been there, but you have never been able to see before. It's really not complicated. Anyone can do it using Embrosewyn's proven techniques and eye exercises. The author has been seeing brightly colored auras for over 60 years and teaching others to begin seeing auras within 5 minutes for the last 22 years. "Auras: How to See, Feel & Know," includes all the power techniques, tools and Full Color eye exercises from his popular workshops. For those who already have experience seeing auras, the deeper auric layers and subtle auric nuances and the special ways to focus your eyes to see them, are explained in detail, with Full Color pictures and illustrations to show you how the deeper layers and auric aberrations appear. There are 4 versions of "Auras: How to See, Feel & Know." It contains 47 Full Color photos and illustrations showing the most realistic pictures of auras you have ever seen. To get the maximum benefit and quickly become proficient at seeing auras, the Full Color version is available as either a Kindle eBook or a standard paperback. Customer Reviews

I freely admit that, in general, I am not a "new-agey" person and I have spent the biggest part of my adult life looking upon the various disciplines therein as little more than nonsense and "hooey". So, it was with a degree of reluctance that I agreed to appease my girlfriend's request to "open my mind" to the possibilities. She claimed that her friend (whom I generously referred to as, "Your crackpot friend") had taught her how to see auras. She wanted me to try it. I declined. She insisted. I declined again. She reminded me who is boss with an endearing pout. I agreed. However, before I invested any time with the "crackpot friend", I wanted to learn a little about what I was in for. This is the book I found. I began to read but, before

my arrogant pessimism could fully kick in, the author made a bold claim right out of the starting gate: "Anyone with vision out of both eyes can begin seeing the radiating energy aura surrounding every person, usually within just 5-10 minutes of training." Okay, I thought. Prove it! I eagerly flipped ahead to Chapter 10, "Retraining Your Eye Rods and Cones" to Exercise 7 which asked me to begin by focusing on a pencil. I went through the next few exercises and it seemed that the net result of my effort would be a pair of crossed eyes. But then, a funny thing happened. Our dog, Flearoy, walked in my office and, as the book suggests, I attempted to look "through" my beloved pooch. To my utter amazement, I thought I saw a yellowish haze emanating from Flearoy as he prepared to lick himself in a place I shall not name. At first, I thought it was my imagination but, doggone it, there it was! My mind ferried between the shock of "seeing" an aura for the first time, and the disgust of being keenly aware of the actions of a canine tongue that frequently licked my face. In all seriousness, I was genuinely impressed with a book that I was fully prepared not to like. The author writes in a clear and conversational manner that is easy to understand. The layout and formatting of the e book version is very professional and the photos and diagrams are top-notch quality. I haven't had my session with the crackpot friend yet, but I'm really glad I gave this book a chance. Maybe there's something to this "aura" business after all!

Ever since I was younger, I had always been curious about auras and the certain energies that people seem to give off. It's one of those things that I could never see but always seemed to be able to feel. After some research, I came across this book and figured I would give it a try. Mind you, I knew next to nothing about auras or what they meant. It's very informative about auras and the author's journey to finding answers. I found the color part very intriguing as it explained the meanings of colors you may see as well as the different stages of auras. The pictures were so helpful when I was trying the exercises as I am more of a visual learner. This book was well-written and gave a wealth of information but still very understanding and comprehensible. To be completely honest, I wasn't exactly sure what to expect with this but it definitely surpassed my expectations. If you have ever been curious about auras like I have, I genuinely recommend this.

This is an excellent book for people interested in really understanding auras and how they "work". Beginners will enjoy this as well, and people just looking for a fun and interesting read. Honestly I knew nothing about this stuff, and now that I've read this I think it's a really interesting concept! Doing the exercises in the book, I still have yet to see any traces of auras, but my eyes feel a lot

better in general, and focus a whole lot easier than they did. I actually have low-prescription glasses that I have to wear most of the time, but I after reading the book and doing everything it says, I find that I can go a lot longer without them now! :) All the exercises not only help in what he's working the reader toward, but also just help in general! Even the physical exercises! The book is also a bunch of simple, easy, 1-2-3 steps that are not difficult to follow although they explain and get us to do things that are so complex! The author has a nice flowing style of writing that's easy to understand. He puts some of his own experiences with auras into the book too, so we aren't just reading a guide without giving examples or explanations. It was awesome to have that nice storyline feeling to it going on in the background :) Overall it was a totally awesome book, for beginners or people really wanting to learn this or for those looking for an interesting way to spend the afternoon. Loved it!!!

My first reaction was "Wait, what's an aura?" so clearly I'm not naturally gifted in this area. So, my first reading was to simply try to understand the subject of auras. This is a well written, easy to follow explanation of the subject. It is also a personal story, not a dry, obtuse paper on the subject. On my second reading, it is a very clear step by step guide based on classes the author has taught which provide instructions and helpful tips to the reader to learn to see and understand auras. But, I must warn you, it is just like a physical fitness book in one must put down the book and do the exercises to gain the benefits of the information shared. I like this book and recommend it to anyone wanting to learn about auras and how to learn to see them.
