Customer Reviews

I was a bit disappointed that the bread recipes required many other flours than just coconut. Not sure why you have to write so many words but here you are.

Nice recipes, and I'm pleased with the book.

Really enjoying this purchase.

If you are looking for gluten free, this might fit the bill, but this is not low carb, so the title is very deceptive. One of the sample recipes has 4 cups of rice flour and 2 1/2 cups of sugar in addition to a small amount of coconut flour. This is NOT low carb by any means. This should be called "Incorporating a Little Bit of Coconut Flour into Gluten Free Recipes" instead of Coconut Flour recipes. I am disappointed that the title is so deceptive, since I am looking for gluten free AND low carb recipes. So glad I didn't waste my money on this.

Awesome recipes which I will use, including Pizza Crust and Pie Crust, Cheese Crackers and Garlic Cheese Bread. All low carb, which is what I was looking for. Well, the Pizza Crust, I might substitute which kind of milk I use to make it more low carb, but of those ones, yes, all low carb and excellent. Yes, some of the recipes are not low enough in the carbs, but there were a few I thought were excellent for the low carb crowd (such as those listed above), and anything to help along the low carb diet road is helpful!! Appreciated, and worth picking up, thank you Jeen.
