## Customer Reviews

This is an excellent book that unfortunately tells it like it is in Probate courts across the country when elderly are ordered into guardianships (conservatorships) despite estate plans and their wishes. When I first wrote this review I was furious and ranting about what happened to our Dad and my family. I did not mean for the review to be about my story. In this book, Hood tells the story of many victims and their families. The best advice given is to avoid taking matters into courts and resolve

them among family members...easier said than done, but true. There are not many books written about nightmare guardianships, so this book like others is a welcome resource for the public. Each book contributes to an understanding of the issues involved and what is needed and what to avoid. It is very difficult to find an attorney to represent you should you need one. The author mentions two attorneys in Texas who are capable and willing to take on these cases. I would recommend this book to any family who gets sucked into the probate guardianship machine in probate court or those who want to avoid the possibility when family members disagree about Mom and Dad's personal and financial care.

POWERFUL! INSIGHTFUL! AND SCARY AS HELL!! A DEFINITE READ FOR EVERYONE WHO NEEDS TO KNOW ABOUT THE PROBATE SYSTEM BEFORE IT'S TOO LATE...INCAPACITY AND GUARDIANSHIP CAN HAPPEN TO ANYONE, ANYTIME. YOU DON'T HAVE TO BE OLD TO BECOME VULNERABLE TO THE PROBATE PIRATES. A CAR WRECK, ILLNESS OR OTHER COMMON CATASTROPHE CAN LEAVE YOU UNABLE TO MANAGE YOUR PERSONAL AFFAIRS AT ANY AGE. THIS BOOK IS A ROAD MAP TO AVOID THE PITFALLS OF THE PROBATE EXPERIENCE.

This book tells the reality of "Guardianship in the New America"- sadly the new america is beginning to look like the old - the days of slavery and the taking of human souls- who have aged, or born with disabilities, or inflicted with incapacity beyond their control, this also includes our brave men and women who have fought for our country for our freedoms. Guardianhips in the New America creates the loss of value of a human being, a judicial proceeding that removes the civil, human, and constitutional rights of our society's most vulnerable. Guardianship in the New America are about nothing more than profit- all under the "guise of protection"- to be protected relies solely on the dictator (probate judge) who strips a person of all their rights in an administrative court that was created to handle the affairs of the deceased. A living human being stripped of inalienable rights only purpose for living is for the profit of others. This book is excellent to expose that Guardianship has become Slavery in the New America.

The work by Ms Hood to reform the FLEEING of elders in The State of Texas is commendable .. Texas has a group of attorneys supported by attorneys in elected offices that are refusing to enable families to retain the control of the person and finances of their families because the State of Texas feeds its attorneys with these funds .. it should be criminal what these attorneys have VOTED into

for themselves and they are not liable for ANY of their actions .. HORRIBLE and shame on the Great State of Texas for this system

Personally Met Kristi and she is a true advocate for the elderly! Human elderly trafficking is rampant throughout Texas and especially Harris County, Tarrant County, The head leaders are Probate Judge Guy Herman, Laura UpChurch, Terry Hammond. A must read to protect yourself and your parents from these ruthless, vicious people

This book is a must read. Probate problems for disadvantaged persons or bereaved family at loss of a loved one. Probate Courts should be above board at all times. Unfortunately they are not. Thanks J. Kristi Hood for writing this book.

A must read! Insightful documentation that builds an understanding of how exploitative guardianships can affect anyone.

a good primer with personal stories and news clippings.
