This book has brought me to realize how sweet potatoes are such an amazing carb with lots of benefits. It a good read and also great recipes

I waited until I had read through and tried some recipes before I posted my review... 5 stars all the way!! This is super informative, easy to follow and above all, the recipes are amazing!

Life changing!! Get the book! In fact, get 4 and give them to your friends and family. They will love you for it. Stop thinking about it and take action. You will NOT regret it.

I've read literally every, single diet book out there. The Sweet Potato Diet is rock solid and right on. I would recommend it to anyone looking to change their weight, their health and finally get it under control. Thanks Michael!

I am kind of disappointed in this book--it is really not what I hoped it would be, but does have some good tips and recipes.

I lost 10 pounds the first week. I was not hungry.

Maybe this program works for some, but I can't eat that much. There wasn't a lot of advanced learning from this book either. Michael seems like a great person but I personally didn't learn a lot from the book. Most of the info I'd already learned from free podcasts and there wasn't a lot of depth.

My son loves the recipes
