Unacknowledged: An Expose Of The World's Greatest Secret

Synopsis

The Biggest Lie in History is about to be Shattered. UFOs are real. In late June of 1947, three extraterrestrial craft were downed outside Roswell Air Force Base. Many more followed, revealing dozens of ET species and a Rosetta Stone to a new physics an energy generation and propulsion system responsible for interstellar space travel. This new system could have easily replaced oil, gas, coal, nuclear plants and with them, the entire geo-political and economic order on our planet -- only a cabal of bankers, the Military Industrial Complex, and Big Oil stopped it. We've been lied to. And now, 70 years after Roswell the witnesses to that lie have come forward to testify in a MUST-READ book that will shock the world. Look for the accompanying documentary to be released from The Orchard, a division of Sony.

Customer Reviews

"A great challenge of life: Knowing enough to think you are right, but not knowing enough to know you are wrong." - Neil deGrasse Tyson That is why everyone needs to read this book. Even Neil

deGrasse Tyson.

Before reading this book, read 'Hidden Truth' for a better understanding of the main position of Dr Greer. This book once again sets forth the technologies known by the Earthlings which are maintained secret and can radically change the way of life on this planet. According to the book, zero point energy and antigravity are technologies known by human beings. Zero point energy, which is free, clean and sustainable, can be converted into electricity avoiding the use of coal, oil, gas, water and nuclear resources. Transmission lines and expensive power plants will be unnecessary if this technology is disclosed. New transport means (silent and high speed flying vehicles) will be possible to be developed. Surface roads won't be necessary anymore. No more jets. Pollution can be stopped. In medical area, cancer can be cured and organs can be regenerated. But, the implementation of these technologies will completely redefine our current global economy. This huge problem involving strong economic interests is difficult to be faced and solved. The book opens a new perspective to our planet showing that our future can be wonderful; our Earth can be transformed into a real paradise where important material causes of stress and suffering are abolished. This is a human right that is being denied, isn't it?

Dr. Greer's efforts to bring together the brave who are willing to speak out succeeds by combining those sources of enlightenment into one voice against the secrecy that binds us. The information may be familiar to students of the genre, but his arguments for releasing free energy technologies are the reasonable conclusion to a lifetime of effort at dispelling ignorance. Dr. Greer provides a way forward for civilization. We are in a do or die situation. Who else has this level of concern and the audience to back it up? To my knowledge only Brilliant Light Power's Dr. Mills is in the game as well. If legitimized by the commercial prototype currently under development, the SUNCELL will provide the required energy solution sooner than anyone. This 150 KW version of their portable clean energy electric generator is due to be complete this summer. World peace will continue to be an issue.

Read this before you read anything else. This book represents years of diligence, dedication and hard work. I should not be discounted lightly.

Excellent book. Well written and thoughtfully organized. Insightful and eye-opening information that is a perfect introduction to this "unacknowledged" reality for those who have not been exposed to

this type of material before.

You don't get a book like this to enjoy its literary qualities; you get it for the data. In attempting to make it readable, follow the movie script, and be informative, it is possibly a bit weak in what could be its most important function. However, I can't vote low for a book with as much data on this topic as this book has. Such books are not written every day, and so it has value that transcends how it was written. In school no one teaches you how life on Earth really works. With this book you begin to find out. There are many books in this category, yet they are a small fraction of all books written. So you have to search them out and get a copy - or at least read it - before they disappear or go out of print. It's not popular or perhaps even cool to be aware of data like this, but if you want a future, then you might want to check this book out. Dr. Greer has theories or opinions about this subject that I wish he would keep to himself. But we should all be aware of what has been reported as seen or done. You don't find stories like this in your local newspaper.

Steven Greer is definitely fulfilling his calling. He is very intelligent, very knowledgeable in all things physical, mental, spiritual and any other avenue that pertains to the purpose of the Earth, the way all things are working together, and when we disrupt the status quo, he understands how it happened and what needs to be done to bring it back to where it needs to be. He also understands the connection between humans and the Earth, which most humans still fail to understand. He gently advises us of what he sees in our mis-steps and also allows us to make our own correction. Just a very, very intelligent, kind and compassionate soul. His love for humanity and All That Is is quite evident. What a Blessing to the Earth! Oh, he's a great writer, too, very easy to understand.

Outstanding!
