Among the new recipes: famous Persian butterscotch pie delicious blueberry corn muffins tasty cranberry coffee cake fabulous four grain bread luscious lemon bars delightful chocolate crinkle cookies In addition, you'll find classic recipes for everything from beverages, breads, and entrees to cookies, puddings, and pastries. The tables of cooking temperatures, weights, volumes, and substitute ingredients will help to make your operation run smoothly and build a satisfied and loyal clientele. The fourth edition of

Large Quantity Recipes extends to new areas of business, including inplant foodservice, nursing and retirement homes, church and school foodservice operations, and commercial restaurants. So whether you're a supervisor of multiple units with a limited amount of time; a new employee struggling with production and service requirements in a large quantity kitchen; an accountant calculating menu costs; or a student preparing for foodservice systems management, Large Quantity Recipes will serve as the cornerstone of your entire operation. --This text refers to an out of print or unavailable edition of this title.

About the authors Margaret E. Terrell, D.Sc., Professor Emeritus, was a Professor of Home Economics and Director of the Administrative Dietetic Internship at the University of Washington for 42 years. She was also the owner of the Persian Dining Room and Terrell Dining Service, which operated the concessions at several industrial foodservice facilities, including American Can Company, Safeco Insurance Company, and Fisher Flouring Mills. She has written numerous articles and is the author of Professional Food Preparation; For Goodness Sake, Mary McCrank's Dinner House Recipes; and is co-author of Foodservice Planning: Layout and Equipment. Dorothea B. Headlund is a foodservice consultant. She has served as catering manager and food buyer for the University of Washington Dining Halls, and as supervisor of Terrell Dining Service. She also helped plan and organize the Safeco Insurance Company home office cafeteria. Ms. Headlund has over thirty years' experience in institutional and industrial foodservice, commercial restaurants, and clubs. --This text refers to an out of print or unavailable edition of this title.

It is in better condition than I expected, which was very nice. If you have the need for large quantity recipes, this is definitely the book to get - it makes the job so much easier because the recipes are uncomplicated, no guesswork, and they turn out great!

Yes, this is the one! If you're faced with having to cook for a crowd and have little or no experience, this cookbook is a really great addition to your cookbook library. The recipes are laid out in a no-nonsense format, they're easy to follow, they give pan sizes and amounts, and most of the recipes are for 50 servings which really simplifies the math! It's a textbook for the food service industry so it gives a lot of good information, including weight and volume measures, substitution equivalents, food portioning aids, and more. Each chapter begins with useful information and extra tips on food prep. I plan menus for my church's Wednesday night suppers. We feed families, students, young and elderly members of our congregation and several homeless people in our

church neighborhood. This book has helped take the guess-work out of figuring amounts and portions. It has really made the work easier. I feel as though I've found the Holy Grail of cooking for crowds!

This cookbook is an invaluable resource for my catering department as well as a basis for recipes for my culinary class. They are easy to follow and have both Metric and U.S. measurements for ease of conversions. Since purchasing this book, I've enjoyed preparing many epicurean delights from within its pages. I've been able to provide nutritious, eye pleasing meals for over 300 along with scaling several recipes down to meet the dietary needs of only 20 to 30 guests. Cooking in bulk is a snap with this book, because it takes the guesswork out of the kitchen!

This is a book I am glad is in my resource library. It has recipes that are good for an older population.

While the recipes are generic, they are accurate, easy and clear. I would recommend this to anyone who has to cook for a crowd

I like the metric measurements in the recipes since we use metric in Australia. You can't go too wrong with these recipes - the author gives you the measurements of the pans both metric and US quantities as well as volume for those who like cups etc. It is nice to have this collection on hand instead of trying to develop recipes from domestic size for the large quantities. I work in healthcare. Thank you for supplying the book to me - it arrived by overseas postage in approx 2 weeks

It is difficult to write a review of a recipe book, one has not tried. Therefore I have given the 4 star rating. Had I examined this book in a book store, I would have purchased it (despite the high cost). I bought it as a present for my son who has assumed the position of planning & executing meals for a large group. The book is meant for the professional chef. It has a great number of recipes & they all include directions for "safe" handling of each recipe, which I felt was essential for my son, who is a novice.

Had to return the book because it was obviously stored in a damp place. It had a moldy odor - not good for one with allergies.
