# Install Your Own Solar Panels: Designing And Installing A Photovoltaic System To Power Your Home

## Synopsis

Labor and related costs account for more than half of the price of the average home solar installation. But homeowners can save thousands of dollars with this user-friendly manual, which follows the same process professional contractors use. Through detailed directions and step-by-step photos, veteran solar installer Joseph Burdick and seasoned builder Philip Schmidt teach you how to determine the size, placement, and type of installation you'll need. This comprehensive DIY guide covers everything from assembling rooftop racking or building a ground-mount structure to setting up the electrical connections and making a battery bank for off-grid systems.

## Book Information

Paperback: 200 pages

Publisher: Storey Publishing, LLC; 1 edition (June 27, 2017)

Language: English

ISBN-10: 1612128254

ISBN-13: 978-1612128252

Product Dimensions: 7.9 x 0.6 x 9.9 inches

Shipping Weight: 1.4 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #298,954 in Books (See Top 100 in Books) #22 in Books > Engineering & Transportation > Engineering > Energy Production & Extraction > Alternative & Renewable > Solar #212 in Books > Crafts, Hobbies & Home > Home Improvement & Design > How-to & Home Improvements > Electrical #606 in Books > Crafts, Hobbies & Home > Sustainable Living

## Customer Reviews

“Burdick and Schmidt cut through the jargon, electrical codes, and potential pitfalls to help anyone interested in solar power to do it themselves safely, economically, and effectively.”  
Dan Fink, professor in solar energy technology, Ecotech Institute  
“Explains solar energy with expertise, joy, and aplomb.”  
Tim Olsen, president, Advanced Energy Systems LLC

**Make Your Savings Shine** This fully illustrated step-by-step guide provides the essential advice you need to successfully install your own solar array. And by doing it yourself, you'll recoup your initial investment faster than ever. Solar professional Joseph Burdick and veteran builder Philip Schmidt take you all the way from assessing your site, designing your system, and getting a permit

to shopping for parts and installing the modules. You'll use the same thorough process that the pros do, find answers to all your questions, and set up a complete system for a fraction of the cost.

This book is the best I've read on solar tech so far. So good, in fact, that I doubt I'll be requiring any more.
