Niki Behrikis Shanahan is the author of "There Is Eternal Life For Animals" and "Animal Prayer Guide." She has a very unique Christian animal ministry. Niki donates much of her time in grief counseling for pet owners, and in praying for sick and lost animal companions.

I bought this book shortly after I lost my beagle Ace. He had surgery to remove a tumor on his liver and while he was doing great right out of surgery, he declined shortly after and didn't respond to any attempts to save him. We had to put him to sleep. The ONLY thing that brought me comfort was to know that I will see Ace again someday and when that day comes I will never have to say goodbye to him again. The Christian point of view on various subjects and interpretations of the bible are always going to differ. My personal opinion is that when God designed both me and Ace before the world even began He knew He was going to bring Ace, my husband, and I together. And I'm sure that God was delighted because He knew how much we would love each other. Since Heaven is a place of perfect happiness I don't see how I will not find Ace there. Not only did Niki's book comfort me but she also personally answered emails I sent her while I was in my deepest grief. I was never blessed with children and Ace was the closest thing I ever had to a child. Niki understands this bond and the fact that she took the time to personally respond to me and encourage me meant a lot.

After losing our wonderful pet dog, Samson, on June 3rd, 2012, we were heartbroken, and almost six months later, we're still grieving over him. One might think that the older we get, the less it bothers us to lose a pet, but not true; it doesn't get any easier. We had Samson from eight weeks to 13 1/2 years old, and loved him dearly. After losing Samson, I began to wonder more than ever, if we would see him again, and wanted to believe that we would. I had heard Jack Van Impe talk about our pets in Heaven, but was never absolutely sure that it would ever be a reality; that is, until I read Niki Stranahan's book "Pets in Heaven." Now, it makes perfect sense, based on bible scripture, AND, God's love for all of His creation, that we will see the "little guy," as my wife called him, over on the other side. Also, I am half way through Randy Alcorn's book, "Heaven," and I ask myself as a Christian, "how could there have ever been any doubt in my mind." I believe that God put it in the hearts and minds of those like Niki Stranahan, to search these things out, to write them down, and

make them available to us. These things only add to our desire to please God, and walk in His ways. In Rebecca Springer's book, "My Dream of Heaven," she writes, "One of the sweetest proofs we have of the Father's loving care for us, is that we so often find in this life, (Heaven) the things which gave us great happiness below." Yes, my wife and I will most certainly see little Samson again.

I always believed God loves all his creation. He gave us beautiful birds, and millions of creatures. If he created all of these, I know he would not destroy them, and say ok, I'm finished with this. No, He loved them, and it makes Him happy, and makes us happy too. Everything He does is for his children who believe in him.

We were all devastated when my grandson lost his big dog Harry! Harry had been with him for over thirteen years and was like a family member. His entire family took the loss of Harry very hard, but Seth took it hardest. Even now, many months later, he's still feeling depressed. Several friends recommended this book, so I finally got it for him for Christmas. The good news: His mother reported that they started reading it as a family on Christmas Eve and they each got something from the little they read. After that, Seth read it and told me it's really helping him and he's starting to heal. Since it's helping him, his parents and sister now plan to read it separately. Woo-hoo! Can't beat that for a recommendation! One of the best purchases I ever made. I'm going to post a composite photo that Seth created of "Harry in the Clouds" as my profile. Hope you like it. Rainbow Bridge book - just what it says is a glorious place for all of God's creatures to become full of life again. I know that I will be reunited with my Lucky and Tommi again. I have heard of this book Rainbow Bridge and have read a poem about Rainbow Bridge and when I went to check for another book on - found this book and had to purchase immediately. I have found this book to be very helpful, putting me at peace after I lost my second pet in less than a year.

Dog lovers need to read especially if owner and dog are VERY close. Helps with knowing your best friend is waiting for you so you both can enter through the gates of Heaven together!!!!

What a comforting book this is. Pets are indeed our 4 legged children and when we have to see one leave us we need comfort in the extreme. Rainbow Bridge is an affirmation that we will see our

precious pets again just as we'll see our human loved ones again. I highly recommend this book.

I recommend any pet parent to read this book. I lost my baby girl (American Eskimo) on May 7, 2013, from a horrific cancer she had. This book certainly did help me get through the bad times. I am still having bad times with a great many tears but then I think about my Samantha and how she is watching over me and her new little sister (Daphne, American Eskimo). I know Samantha is our angel from Rainbow Bridge. This book is so wonderful I bought a copy for a friend as her little gal (doggie) is getting up there in years and wanted my friend to have this book to help her through the bad time of losing her. Let's hope she has many years left with her.
