need to read now

John Keegan could give Barbara Tuchman a run for her money. In this excellently written speculation on three major battles (A Study of Agincourt, Waterloo, and the Somme.)The first part of the book was a mixed message. I can understand that as a writer John Keegan had to explain that he has not been in a battle to quell detractors. However he may have overdone it a bit. Mixed with his apology is an excellent overview of what a battle is. I made it to the Tet Offensive 1968. He could have been next to me from his descriptions of battle. I did see some differences in attitude between West Point and Sandhurst. I would have been satisfied if the first chapter was the book.Then he goes on to dissect three grate battles. I only knew of the battles through Shakespeare

and other tellers of tales; so it was nice to get the skinny on what it was really most likely to be. You do not have to be in a battle to feel you were there but it helps. This is one of those books that need to be re-read as there are too many details and you will have to pause and think about what you just read. This book was very well worth the time to read it.
