U.S. Marine Corps Scout/Sniper Training Manual

Synopsis

This sniper training manual -- used by the Marksmanship Training Unit of the Marine Corps Development and Education Command in Quantico, Virginia -- is packed with information on every aspect of the art and science of sniping. It outlines lessons on sniping, care and cleaning of the M40A1 sniper rifle and equipment, sights, camouflage, the effects of weather, range-estimation techniques, target detection and selection, offensive and defensive employment, construction and occupation of hides, mental conditioning and more. Samples score cards, observation logs and range estimation score sheets.

Customer Reviews

This is not a training manual in the sense it goes into detail. The manual lists topics to cover but without an instructor or in depth knowledge it isn't very useful. I scanned it and decided that I had to have a more detailed manual.

Item arrived on time and intact. This is an instructors guide for teaching snipers and officers. Does not contain detail information however. Is worth while read for someone starting long range shooting, or with an interest in military sniper operations.

Meh, save your money.

Not a lot of useful info get ultimate sniper book covers everything

This replaced my version from 1972 class. A good overview, however does not replace the full instruction received, and confirmed through experience.

expected more illustrations

Good book with tons of info! But it's written like a lesson planner, instead of a book with the reader being the "student" it basically tells you how to teach the course.

This "Training Manual" appears to be a copy of the text from possibly the original "lesson outline". Other than a few range cards/tables, there are no illustrations to compliment the text. Very good information but without the lesson illustrations.
