Making Wooden Dinosaur Toys And Puzzles: Jurassic Giants To Make And Play With

Synopsis

Kids love dinosaurs! These primeval reptiles inspire children's imaginations with scary fun and some of their earliest connections to science. Create exciting wooden dinosaur puzzles and toys to delight a special child in your life with this ingenious book. Thirty-eight original puzzles cover all of the most popular species, from Velociraptor and Stegosaurus to Triceratops and Tyrannosaurus Rex. Two spectacular puzzle dioramas feature a Maiasaur mama with her babies, and a T-Rex on the attack. Patterns are also provided for easy-to-cut dinosaur toys that are safe for little kids who can't play with small objects. Award-winning scroll saw artists Judy and Dave Peterson offer step-by-step instructions plus basic information on safety, cutting, sanding, finishing, and equipment. Once you get started making these clever dinosaur puzzles, you will not be able to stop.

Warning: Your Workshop Is About To Be Invaded By Dinosaurs Kids love dinosaurs! These primeval reptiles inspire children's imaginations with scary fun and some of their earliest connections to science. making these clever dinosaur puzzles, you won't be able to stop. Prehistoric puzzle fun for both beginning and advanced woodcrafters: - 34 ready-to-use dinosaur puzzle patterns- 2 big diorama puzzles- Step-by-step photographs for cutting a Triceratops- Basic information on safety, materials, equipment, and techniques- Safe dinosaur toy patterns for very small children

Award-winning scroll saw artist JUDY PETERSON is the author of *Animal Puzzles for the Scroll Saw*, Second Edition; *Fantasy & Legend Scroll Saw Puzzles*; *Zodiac Puzzles for Scroll Saw Woodworking*; and *Fantasy Adventure Puzzles Pattern Pack*. She is a regular contributor to *Scroll Saw Woodworking & Crafts* magazine. Judy operates FanTaminals, a business selling wood-crafted puzzles online and at art and craft shows. She also teaches beginning and intermediate scroll sawing at Woodcraft in Madison, Wisconsin.

This puzzle project book for scroll saw users features dinosaurs. It is a reprint (with some updates) of *Dinosaur Puzzles for the Scroll Saw* by the same authors (2002). The new book adds puzzles for Therizinosaurus, Spinosaurus, Quetzalcoatlus, Lambeosaur, Iguanodon and Anzu Wylie but leaves out the Oviraptor and Pachyrhinosaur from the first book. The Toys section at the end may be nice but it's unnecessary. The puzzle patterns are repeated but without the lines for breaking them into puzzle pieces. Since the original book has been out of print for a while this new edition is welcome for those who like to make toys out of wood. However, if you don't have a scroll saw the only way you can use this book is to buy a high quality coping saw and have a lot of patience.

(Puzzlers....did I make that word up???) This book was difficult to find, but I am so glad that I did. I have three of Judy and Dave Peterson's scroll saw puzzle books, and I wish there were more. They are easy to follow, well explained, with easy to copy patterns. I highly recommend any of their books, and as I said, I wish there were more of them.

nice book, good patterns, the only problem is the contrast of the patterns when you scan the page so you can use it. That and the fact that the book is bound and unless you have a flat bed scanner expect to cut the pages out.

Outstanding book. Lots of great products.

Great book! Great puzzles for kids
