Customer Reviews

It was not quite what I was looking for. It has many "fancy" recipes in it. I was looking for something more basic. I found some on the Cuisinart web site.

Love this book a lot of very helpful tips and recipes. I would recommend it to both Family and Friends. Came in good condition and packaged very well. Thank you Mary Lou

great start book

The book gave me some great ideas, it's my 1st food processor. I started making my own salad dressing, much better than store bought.

Nothing special and not at all informative about creative ways to use the Cuisinart. I don't recommend it..

I like the book because it helps me to eat healthier organic ingredients, avoid preservatives and harmful chemicals. All recipes are tasty and easy to make, thus I don't need to go out instead of making meals!

Love this Processor Family Cookbook.

Good book.
