New Directions In Lubrication, Materials, Wear, And Surface Interactions: Tribology In The 80's

Synopsis

This book compiles the proceedings of the International Conference in Tribology in the 80's, which was hosted by NASA to bring together 36 of the most internationally known experts in tribology. The detailed papers prepared by these experts for the conference cover the important elements being studied in tribology and provide information that can be put to broad, practical uses.

Book Information

Hardcover: 841 pages

Publisher: Noyes Pubns (March 1985)

Language: English

ISBN-10: 0815510136
