All That Remains: Scarpetta 3 (Kay Scarpetta)

Synopsis

With >, #1 bestselling author Patricia Cornwell returns to the chilling world of gutsy medical examiner Kay Scarpetta for the third installment of the classic suspense fiction series that begins with >.#1 New York Times bestselling author Patricia Cornwell's heart-stopping thriller featuring gutsy medical examiner Kay Scarpetta In Richmond, Virginia, young lovers are dying. So far, four couples in the area have disappeared, only to be found months later as mutilated corpses. When the daughter of the president's newest drug czar vanishes along with her boyfriend, Dr. Kay Scarpetta knows time is short. Following a macabre trail of evidence that ties the present homicides to a grisly crime in the past, Kay must draw upon her own personal resources to track down a murderer who is as skilled at eliminating clues as Kay is at finding them...

Customer Reviews

Another early book by Patricia Cornwell. I have started rereading some of my early book purchases. The early books by this author I find are her best works. The plot is well within reason and the character is continuing to evolve within the realm of reality. A good read.

The second in the mystery series by Patricia Cornwell with Kay Scarpetta as the chief medical examiner in Virginia is a much better novel than "Postmortem." Kay and her partner, detective Marino, have put aside most of their animosities and are working together which is a good thing because these unsolved murders need both of their talents to solve. Characters from the first novel are more fully developed, Kay has made more friends and isn't as vulnerable, and Marino is making an effort to smooth out some of his rough edges. There is still too much detail in the red herrings and in the ramblings about storms in Virginia, and Marino still hasn't learned to use the plural of the verb "was" (surely someone could clue him in because it's annoying and makes him look stupid), but it is very interesting to see the growth in Patricia Cornwell's style. She can certainly entertain the reader..

I have just started reading the Kay Scarpetta series. I was given a couple of the books and loved them. So after reading Cause of Death and The last Precinct. I loved the books, so I started from the beginning and in about 2 weeks I have made it thru Cruel and Unusual. Now I'm starting on The Body Farm. If u are into reading a great story line and crime novels this is a great series.

Super great read - did not want it to end!

Sorry to say, these books aren't for me. And that's too bad as I always love to find the right author with a long list of really good books. Past about Book 3 of Scarpetta, there was no learning experience. I'm too old to spend my time reading the same-old-same-old. If you want to learn something about human nature, for instance, go and read Ruth Rendell's book, "Guilty Thing Surprised." True insight.

Another amazing read from P. CORNWELL. I was hooked from page one, again. I read this when it was first released & it was just as good reading as it was the first time. Ms. CORNWELL is such a good author & she keeps the reader attention by throwing curve balls in the story. I've always loved her books because she good at what she does. Each new read come with a set of new facts, but she often will bring up a few things that were in the previous book, things that only a follower of the character & series would remember. I've aged as her character has. Gracefully & with style ! Posted

good book

I have enjoyed all of the Scarpetta series books that I have read. This is one of the earlier books in the series. I enjoy the somewhat love-hate relationship between Kay and Pete, and with Wesley Benton thrown in, makes for a very entertaining read. Great suspense and moves fairly fast with twists and turns continually. Keep on writing in this series Patricia Cornwell, can't wait for new episodes.
