Boundaries : The Power Of NO (Codependency, Social Anxiety, Assertiveness, Self Confidence, Self Esteem, Toxic Relationships)

Synopsis

Boundaries And How To Say NO! 2nd Edition - NOW IN PAPERBACK! Boundaries for nice people. When nice people are asked to do things, those who feel insecure may be tempted to say "yes" more often than not. They need to create reasonable boundaries that allow a certain element of personal freedom of choice. Without these boundaries, what tends to happen is that others use nice people as "doormats." It's a fact of life that there are givers and takers that make up the human race. Givers are those who tend to put other people's needs before their own. Takers are those who profit from the generosity of kind people. Although giving is a very positive experience when in proportion to the give and take nature of a relationship, it becomes negative when nice people are pushed beyond acceptable limits and find themselves unable to say "no." This book covers the topic and gives demonstration to help those who find themselves in the unfortunate position of being constantly used. Setting boundaries helps nice people become more positive, helps self-esteem and strengthens the character, thus inviting more respect from peers. Learn the POWER OF NO! If you want to have good relationships with the people around you, but you not to do things that do not want, then this is the book for you. Here you will find tips to help you say "no", but also to learn what you really want. Often each of us to do something that does not want to just because do not know how to say "no" and we have fear to say what we want. If you want to change it, this book will be of great help to you, and I sincere recommend it!

If you are sick and tired of being used by other people as a doormat just because you have never gathered the courage to say no to any of their demands, then this book definitely has something for you. You will learn to dissolve the pressure that builds inside you when someone is constantly making demands on your time and you just can't seem a way to say no. The book provides a nice idea of using excuses to save yourself from a lot of misery. The book has a lot of advice to save yourself from victimization at the hands of others

The essence of this book is about setting boundaries and releasing the chains of societal expectation so you can be free to shine. Sometimes you need to be reminded that saying no is saying yes to a life of peace and happiness for yourself. As a people pleaser, I was always placing others needs ahead of my own, but not any more. Definitely worth a read!

I have read this book three times. It has been the most helpful book for me in dealing with difficult relationships. I have found that when you set the tiniest little boundary with an abusive person, all hell breaks loose for a while but it passes. With practice, setting boundaries gets easier. Don't expect boundary smashers to stick around - they likely won't change and will discard you when you stop playing their game. And that is a good thing! Learn to recognize "safe" and "unsafe" people. Don't let unsafe people in your inner circle - you have to find your wise inner owl and become your own best protector.

I have purchased this book for the brother who needs it. I observe quite positive changes in it! It became more vigorous, more cheerful and more productive. He has thanked me for this book! It is pleasant. Perhaps, I will begin to read it too!)

I doubted a bit that there was power in no. I have heard my whole life that being negative can hurt you and make you a negative person. Well, was I wrong. Jeffery lays out a powerful argument that

shows why saying no can be one of the most important decisions you will ever make in becoming a more positive person. The key here is boundaries. If you say YES all of the time, you will allow people to cross over your boundaries until you have none. You just sit there with no time and resent the others around you. This book will teach you that you can and should say no. People will respect you and you will respect them as well!

I bought this book for my friend who I feel can be a bit of a door mat at times. People are always taking advantage of her loving nature and she finds herself always doing favours for people that wouldn't do it back in return. Anyway she said that she found this book really useful and felt inspired to stand up to people more.

This an excellent book written by this author. If you are one of the people who seems to get dragged into doing things for others because you haven't yet learned the art of saying no then this book is very useful for you. This book really hit the spot. I never fully understood just how important boundaries were until I read this book. Highly recommend for this book.
