## Synopsis

Number Twelve is an urban legend in 2060 New York City. The hot club in the 1960s, it is now reported to be haunted and cursed. Lieutenant Eve Dallas is called there to investigate the apparent murder of Radcliff Hopkins, its new owner and the grandson of the man who made Number Twelve a cultural icon. Several bullets from a banned gun end his dream of returning the building to its former glory. With everyone around her talking about the supernatural, pragmatic Eve won't let rumors of ghosts distract her from hard evidence. The case becomes even more bizarre when it appears to be linked to the suspicious disappearance of a rock star eighty-five years ago. As Eve searches for the connection, logic clashes with the unexplainable. She may be forced to face the threat of something more dangerous than a flesh-and-blood killer. --This text refers to an out of print or unavailable edition of this title.

## Customer Reviews

This was my first audio-book and I chose a good one! Haunted in Death is a novella in J.D. Robb's In Death series. It originally appeared in the Bump in the Night anthology along with stories by Mary Blayney, Mary Kay McComas, and Ruth Langan. Since I somehow missed that anthology the story was new to me. The plot is relatively simple. A murder is discovered in a building that is assumed to be haunted and/or cursed and Eve needs to figure out what happened. The victim is the grandson of the former owner of the building which was a swinging club in the 1960s. The owner of the club had a girlfriend who disappeared and attained legendary status. She was a 24-year-old rock star. Then the owner locked himself into the luxury apartment above the club until he died. Since then the

building has gone through lots of owners who all seemed to have bad luck there. The victim is a guy with multiple ex-wives who was always looking for the next big score - nothing illegal but none of his grand plans ever came through. He had big plans to restore the club and capitalize on the legend of Bobbie Bray. He was shot with an antique gun which turns out to be the gun used to shoot Bobbie Bray too. When investigating the murder of Radcliff Hopkins, Eve finds the bones of another crime victim in the apartment above the club. Apparently the body had been walled in at death but had been found by Radcliff. Eve traces Redcliff Hopkins past to see if there are clues. Everything seems to lead back to his grandfather's day and the mysterious disappearance of Bobbie Bray. And, it seems, Bobbie Bray has never left the building. Eve hears voices and music but dismisses it. She is far too rational to ever believe in ghosts. Though Roarke is willing to believe in the possibility of ghosts which puts he and Eve somewhat at odds. Eve does have to come to the realization of why she doesn't want to believe in ghosts which helps us understand her and helps her understand herself. The thrilling climax also includes a visit from the ghost - though Eve will deny it if anyone should ask. The audio was well-done. All of the characters were given voices that were distinct enough to tell them apart. I liked the emotion in the reader's voice and the suspense that she created. I liked the pacing of the story and the reading. This was a very pleasant way to spend about three hours.

Another wonderful book

It wasn't one of her best books. What ever happened to Trina (her crazy hair dresser?) And Mavis Freestone & Bella. She's cutting out her really good characters and the books aren't as interesting as they were in her first books. Running out of ideas?

JD Robb is an easy, but great read. I love listening to audio books and these are just long enough to enjoy while driving, but no so long that it will take you months to finish the books. Love the characters!

I liked the supernatural element that last even after the story ends.It mystifies the whole investigation even as Eve negates it and makes the story more intriguing.

i really enjoyed this book as there was the little twist at the end and the introduction of a spirit was just great,made Dallas just that little more human.once again JD Robb (aka Nora Roberts) delivers.

This was a departure, of sorts, from the standard Lt. Eve Dallas scenario. The process she followed, the suspense, the relationship between Dallas and Roark, is all up to par. Good suspense. The premise, however, takes a little bit of stretch thinking. A ghost from the past inhabiting the body of a descendant. Even with that stretch of the imagination, it is a good read. It catches the attention from the beginning and keeps you going. I liked it inspite of the ghost scenario.
