Estate Sale Secrets

Synopsis

This book is a guide to finding estate sales, shopping them like a pro, and selling your treasures for profit. Years of experience have taught me many lessons. I have combined those tips and tactics into a comprehensive guide to save you time and money.

Customer Reviews

Its a decent book, but the author uses a lot of exclamation points which is distracting from the point she is trying to make. Otherwise there is some great info for shopping at estate sales

I really appreciated this information. I have been buying things for a while and now I have started selling. I really am grateful for the tips in this book because I'm fairly new at this and although I already do several of the things that are advised to become a good reliable seller, I found several new things that I can't wait to implement that I know will help even more.

This book had some good information that I found very helpful. If you definitely just getting started or

thinking about attending an Estate Sale this book is for you.

I liked the book. Provide tips that I wrote down for my future skills.

This book was great, well thought out and included a lot of useful info. I would have liked for it to have been longer, because it was a great read, though for the price it's the perfect size. I like how you get a good deal of information at an affordable price and some of the information in this book is priceless. My hats off to the author and I'm looking forward to more books.

Did not like being locked in to a review of the book. It did have simple ideas to make estate sales easy to navigate.

A completely understandable, must read for those of us obsessed with estate sales! It contains great tips to help you find those treasures you know are hidden in each home you visit!

There are a few pointers in this book that are helpful. For the most part, it's common sense. My best advice for this author is to invest in a proofreader. Too many simple grammatical errors.
