Beekeeping: 3 In 1 Bundle For Beginners And Advanced Beekeeping

Synopsis

A double book bundle with various insights in the beekeeping industry. Don't miss it! Book 1: If you are a beginner at keeping bees, or you are thinking about it, then you need the right knowledge. Without it, you'll get stung, fail to set it all up, or won't know what to do with all those swarming, chaotic little creatures. That's why you can check out this manual. It teaches you, among others: The right equipment to get started. The treatment for bee stings. Raising your own bees and dealing with the queen bee. Where to find colonies and which places are best. Tips about water, smoke, and escape paths. And much more! Book 2: Here you'll find even more about this important topic! Have you been wondering what the best treatments for Bipolar Disorder are? Have you been left in the dark and are you confused about the options out there? Does your child have Bipolar Disorder, or is he/she just emotional? Find answers to these and other questions. In this comprehensive guide, you'll learn, among others: The relationship between Schizophrenia and Bipolar Disorder (and the differences). Ways to test whether or not children have Bipolar Disorder. Medications you can use. Some words about Depakote, Trileptal and LAMICTAL to treat Bipolar Disorder. How to handle someone in your circle of loved ones if he/she has Bipolar Disorder. Tips on finding and using chatrooms as a psychological support system. And much more! Book 3: So you've read books about keeping bees. Great. You've learned how to get that honey and have fun with it. Wonderful. But how about processing, selling, and marketing honey? What about the real business side of the business? In this book, you will find answers to those questions. You will read, among others: How to sell honey at local markets. Remarks about marketing honey to bigger companies. The biology of bees. Short case studies and historical notes in regards to beekeeping. Packaging your honey to optimize exposure and attractiveness. Secrets tips for honey stands. And much more! And it doesn't stop there. Curious yet? Then don't wait and start reading.

Customer Reviews

With the cost of honey rising, exploring the idea of building a beekeeping business is certainly a responsible option. Every major detail of the beekeeping business was revealed in the 4 in 1 book. I highly recommend this read especially if you're considering a business you can start in the backyard.

An excellent introduction to Beekeeping. I've bought already 2 books on beekeeping, this bundle is the best so far! Covers everything in a well laid out, narrative style and Well organized and illustrated, leaves little out. If you are interested in bees or beekeeping it is the best I think.

Mostly informative. Much that you will find in other books.

I expected more, but it was informative.
