Pegi Ballister-Howells is the host of a call-in radio program, "The Garden Show," on WCTC-AM 1450 in New Brunswick. She also has her own 30-minute cable show on EBTV called "At Home With Pegi" and has worked with the New Jersey Farm Bureau, New Jersey Nursery and Landscape Association, Rutgers University Cooperative Extension, and the Vegetable Growers Association of New Jersey. Author of numerous gardening articles she currently writes the newsletter for the Vegetable Growers Association of New Jersey. She, her family and assorted pets, live on a ten-acre farm, Blooming Acres, where they do extensive ornamental and vegetable gardening.

great must have if you live in NJ and like gardening. Got it in great condition.

I LOVE this book! I borrowed it from the library for weeks before buying it. I'm a great note-taker, but still couldn't take enough notes - and needed to own it as a continual reference book. Once, I lent it out to a friend, and didn't get it back, so I ended up buying another one. I HAVE to have this book as a gardening reference - especially for planning during the winter, and especially for buying season

in the spring and summer, and especially for the "what to plant in fall for next year" season. It has easy to read notes/icons for birds, butterflies, aroma, anti-deer, etc. Easy to read notes/icons for sun and water conditions. Great background info on the plants, and wonderful descriptions and tips for growing. Divided into sections by annuals, perennials, shrubs, trees, groundcover, etc. Easy to use & read, but packed with everything you need to know about gardening in NJ.

Perfect!

I've started to become serious about gardening and this guide is really helpful in what types of plants, shrubs, trees, grasses, etc... I will need to plant here in NJ. I especially love the rose section since that is what I want to concentrate on BUT why aren't there any varieties that can tolerate shade? I know they exist. So that is my only complaint.

This book covers everything that you can (successfully) grow in NJ. No more checking zone maps or wondering if a plant will grow and thrive. A great time saver and a book that I wish was published 30 years ago. Well worth the cost in just the time it saves you consulting zone maps that are often wrong.

Any gardener living in NJ REALLY NEEDS this book! I wish I'd known about it sooner... probably saved me a lot of headaches! Loved it so much bought two for my Mom & Sister!!! Thank you!!

good info

I am a novice gardener and I found this book to be very helpful. My first trip to the nursery was overwhelming. After I purchased this book my second trip went well. I knew exactly what I wanted to buy and where to plant it when I got home. It has pictures on every page which is great!
