"This friendly guide from Amatuzzi, a beverage director and wine educator in New York City, caters to wine newbies, covering topics that range from tips on hosting a dinner party where wine will be served to opinions about the screw tops vs. cork debate. However, even those who know the difference between a chardonnay and a chenin blanc will take tidbits of information away from this accessible overview. The many photos (some as large as a spread) are bright, clear, and cheery, and the tables are helpful. But those who are just learning wine appellations may find themselves

wishing that the book had more than one mapâ particularly for the tricky geography of France. Sidebars deliver useful tips, definitions, and interesting facts. Curiously, Amatuzzi decides to divide appellations by white and red wines instead of explaining the wines produced by each country, making for a confusing organization. The writing can be dense, but this is not likely to bother those who will be lured to the plethora of material by the title's clean design and easy tone. Verdict This approachable volume is ideal for readers seeking a broad introduction to the world of wine." Library Journal

If you are a novice in the world of wine who is interested in learning more about the juice but has an aversion to textbook-style manuals, Amatuzzi's "A First Course in Wine" may be the right choice for you. The book is aesthetically pleasing and unforgettably vivid; it's printed on beautiful paper and features stunning photography. More importantly, the writing is refreshing. The author chooses a style of delivery that resembles a casual conversation with a good friend over a glass of wine. He

manages to remain reliable and accurate without sounding snooty or self-important. The book starts with introducing grape varieties and explaining the basics of viticulture and the winemaking process. The next part discusses the enjoyment of wine, such as evaluating, tasting, pairing food and wine, decanting and aging wines, and some advice on how to buy. The final and lengthiest part explores the wines of the world: Old World and New World white wines, Old World and New World red wines, sparkling wines, dessert wines, and fortified wines. The book concludes with a glossary where the most important wine terminology is explained. I had the privilege to meet and learn from Dan in person and his teaching style echoed his writing: done with skill and passion, seasoned with a dash of humor. Reading his book is almost as good as the personal encounter. If you are looking for an introductory book with a bit more depth and detail, I'd recommend Jancis Robinson's Wine Course and if you are interested in the intricacies of tasting check out Michael Schuster's Essential Winetasting. But if you want something light, refreshing and approachable like a glass of Sauvignon Blanc, check out "A First Course in Wine" and you won't be disappointed. What's the worst thing that could happen? You may get thirsty for more...

Well written for those looking for a basic understand of wine from A to Z. Lovely photos, and nice content

This book is lovely! Came in pristine condition and just a beautiful book to behold. Thank you.

I was hooked from the first page! The preface by Mario Batali & subsequent introduction by Amatuzzi were so well written, I knew this book wasn't just one I would flip through & forget. It is informative but unpretentious, chock full of stunning imagery & will make you want to visit a vineyard asap! Lovely book, I highly recommend you buy it for yourself or as a gift to anyone who is looking to learn more about wine.
