Synopsis

Bizarre Stories That Stumped Us All: What Happened, Where Did They Go? Claim Your FREE Bonuses After the Conclusion! Even with every effort we take to provide safety, the danger still exists. Thousands of people per year go missing and are never heard from again. The missing person is a unique phenomenon but as popular as paranormal activities are, one that is so powerful that it can grip the public in fear as well as unite it. Some cases garner national attention, others are local legends. At this point it is difficult to explain why human beings are so enraptured by unsolved mysteries – perhaps it is a product of millenniums of evolution that has led to us surviving, and thriving, on this planet. Perhaps we can come to a better understanding with regards to this question at the end of this book, which is an attempt to chronicle a few varied and interesting encounters with seemingly paranormal activity and cold cases. The purpose of this book is primarily as an interest piece, but also with the intention to arouse a sense of curiosity in the reader towards possible solutions to these mysteries. All these stories are true and all were experienced and reported by the Police and eyewitnesses themselves. Prepare to have your beliefs challenged and your very concept of reality turned inside-out as we look at astonishing true unsolved cold cases stories, missing people and the paranormal... I will try to put forth both supernatural and rational conclusions to the events that will be mentioned in this book, with the intention not of foisting an opinion on the reader, but of exposing the reader to a myriad number of ways in which the unsolved mysteries are said to have influenced our world...
