Chloe Coscarelli recently took home first place in the Food Network's Cupcake Wars, making her the first vegan ever to win on a Food Network competition. Chloe is a graduate of the Natural Gourmet Institute of Health and Culinary Arts NYC and the University of California, Berkeley. She has also completed Cornell University's Plant-Based Nutrition program based on Dr. T. Colin Campbell's The China Study. She lives in Los Angeles.

I have had this book for over two years and swear by it! I made more than half the entries. Her vegan cupcake and cake recipes come out always fluffy, moist and not too sweet. I have learned to make excellent vegan cinnamon rolls thanks to this book. And I love the variety of different types of deserts she included and the breakfast section has come in handy many times when I am in the

mood for sweet breakfast. Her instructions are always clear, simple and easy. I recommend this cook book for both vegan baking novices and experts!

This book is absolutely worth its weight in gold. I have tried nearly every recipe. I love that there aren't weird ingredients that I can't access. Also love that just because it's vegan there isn't soy in the recipes. I hate finding vegan recipes that require tofu. Nothing tastes "vegan". My husband (non-vegan) requests the pecan bars on the regular they are absolutely amazing. I can't say good enough things about this book and have started giving it as a gift. The pictures are a great reference and recipes are easy to follow.

We've been using the recipes from this book for our monthly vegan potluck, and people are starting to worship us! We're practically signing autographs now! Things you never thought you'd get to taste again after you went vegan... like big sticky gooey cinnamon buns! We've made the coconut cake, the german chocolate cake, the cinnamon buns, and a few other yummys from this book, and every single time, people rave about them. One bite into the cinnamon buns, and I actually kinda started to cry from the yumminess. And I wasn't the only one. Chloe uses standard ingredients such as white sugar and white flour, so these aren't "health food" desserts. They taste equal to or better than their non-vegan counterparts. But you can substitute whole grains and such, of course.

We've had this book over a year and have made numerous recipes, almost always with at least good to excellent results. My 16 year old vegan daughter has made: Cloe's New Orleans Beignets, Apple Cider Doughnut Holes, Hot-Fudge-on-the-Bottom Cake, Coffee Almond Crunch Cupcakes, and more! The Chocolate Chip Cookie recipe is better than any other recipe I've tried. (Even non-vegan--no kidding!) So happy we made this purchase!

It is so nice to have recipes that "eating impaired" can use! Chloe has provided quite an education for me, introducing me to new products and methods to enable me to continue baking with my many constraints. I will be ordering her other cookbooks.

Hunted for alternatives for a long time, glad I found a cookbook. Haven't tried the recipes, yet.

I absolutely love this book! Finally a vegan cookbook that doesn't require every obscure ingredient that you have to special order from across the world! Simple, tasty recipes that are easy to follow

and very "down-to-earth." I rented this book at the library and decided that I needed to have it for my own personal collection!

I've only made one (the New York style coffee cake) and loved it, though I would tweak it a bit next time by not having such a thick layer of crumbs on top. And I might add a little more oil to the main part of the cake to add a little more moisture. But every recipe in this book looks like a winner.
