The Face Of God Among Us: How The Creator Educates Humanity

Synopsis

A fresh perspective on religious history that explores the Prophets of the past and offers new insight into the relationship between God and humankind. Author John Hatcher looks at the lives and stations of the Prophets of the past-Buddha, Krishna, Zoroaster, Moses, Jesus Christ, Muhammad, the Bab, and Baha'u'llah. He uncovers a pattern in religious history that seems to hold the answers to questions that so often go unasked in religious studies. In doing so, he offers a new insight into the method by which the Creator educates humankind, and provides us with a fascinating perspective about our existence on this planet.

Book Information

Paperback: 333 pages

Customer Reviews

Highly organized and very thought-provoking.

Fascinating look at religion and the Prophets/Messengers/Manifestations of God that connect us to our Creator. Well worth the time spent on your spiritual journey.

Enjoying the spiritual and intellectual information.

Excellent, learned a lot.

Wow! Just finished reading this book and am starting over. John Hatcher has taken a very deep and

extensive subject and broken it down into pieces small enough to grasp. Drawing on the Scriptures of three major religions (Baha'i Faith, Islam and Christianity), the author explains the nature of God's Messengers, Their methods of educating us and the sacrifices They make for us. Many of us are familiar with the idea of sacrifice as exemplified in Jesus' death on the cross or Baha'u'llah's loss of His son in Akka, but the author points out that these wonderful Beings know before They are born what they will face -- and They choose to come to us anyways out of love for us and a wish to educate us. Hatcher also explains the concept of "fully God and fully man" in terms I can finally understand -- though a second reading is indicated to fully understand his explanation of this subject. I don't usually do reviews, as I do not feel my skill in writing them matches that of many here, but just had to recommend this book. I'd give it 6 stars if I could.

Very scholarly yet easy to read
