I am a snotty English major with a few advanced degrees, hooked on science fiction and the headier type of literature. I needed an audible book for the car and grabbed this one because it was the first on the list. I could have driven across country without stopping. Fantastic characterization, intriguing plot, really a perfect summer read and the audible narrator is delightful. I have already purchased another book by Kerry Fisher for my next long car journey.

The Silent Wife is the story of two women who at the beginning are only connected by the men they have married. In time, they become friends and later on each other's support system. The book begins with Maggie getting married to Nico Farinelli. She knows his mother Anna disapproves of her

but she has fallen in love with him. After so many broken relationships, she has finally found a man she can count on and who thinks of her son Sam as family. Nico also has a daughter from his first marriage, Francesca. Maggie hopes to become a friend to her. Lara is married to Massimo, Nico's brother and they have one child, Sandro. Lara's also the second wife. Massimo divorced Dawn when she refused to have children. Lara couldn't believe when Massimo started courting her and soon he makes her forget all her reservations but after the wedding everything changes. There were so many things I like about the story. Lara and Maggie were both strong in their own way. They both had to deal with Nico and Massimo's mother Anna. She was not an easy person to like. She was always looking for ways to offend the "new wives". As the matriarch of the family, she made sure both sons lived in the same street as her. She even has a key to enter their homes uninvited. Not only did Maggie have to deal with Anna but with her teenage step-daughter, Francesca who was trying very hard to make Maggie feel like an outsider. Lara's life was not any easier. Hers was a hotter hell. These women were both so different but life brought them together. They both were dealing with secrets that could affect their whole family's dynamic. I rooted for both of them to make it. *The Silent Wife* is a very entertaining tale full of emotion, heartache, complicated relationships, love and friendship. I would recommend it without reservation. Cliffhanger: No4/5 Fangs

Bought this book as a "put me to sleep" book. What a surprise that it was a great story that kept my attention. Having been a stepdaughter myself I could understand Francesca and her up and down attitude towards Maggie. Loved the almost happily ever after ending.

This book is so true to life. This is about an Italian family and Anna, who is the mother of two sons, and thinks Massimo, the oldest can do no wrong and her passive son Nico. Lara is married to Massimo and she is hiding a secret about their marriage. And then there is Maggie and her mom Beryl. Maggie marry's Nico after his wife's death and she has to put up with his disrespectful daughter. But you will love Maggie's mom Beryl.

I really enjoyed this book. First time I have read this author. Would definitely suggest this to my friends and family . R.Binder

If you like to read about the Romanov's, you will enjoy this story of historical fiction supposing what might have happened had one of the Tsar's daughters lived after the family was executed. Past and present are intertwined well.

This author writes well at times, but the book is uneven. The initial plot was interesting as were the family dynamics and secrets, but then became predictable. I felt the story was ruined by the sub-plot - the introduction of a character who really added nothing. The only thing that addition did was made one dislike and question the main character. I would not recommend this to friends.

Really enjoyed this book. Hardly an emotional thriller as described but a good page turning story about family dynamics and emotional abuse. Highly recommend!
