Customer Reviews

Since the 1973 publication of Storey's first Country Wisdom Bulletin, our commitment to preserving the arts, crafts, and skills of country life has never wavered. We now have more than 200 titles in this series of 32-page publications, and their remarkable popularity reflects the common desire of country and city dwellers alike to cultivate personal independence in everyday life. Storey's Country Wisdom Bulletins contain practical, hands-on instructions designed to help you master dozens of country living skills quickly and easily. From traditional skills to the newest techniques, Storey's Bulletins provide a foundation of earth-friendly information for the way you want to live today.

Ricki Carroll, The Cheese Queen, is the coauthor with her daughter, Sarah Carroll, of Say Cheese!, and the author of the best-selling Home Cheese Making. She is the co-founder and owner of New England Cheesemaking Supply Company, located in western Massachusetts. Ricki Carroll learned cheesemaking in England. Her company has been supplying home cheesemakers since 1978, with the goal of providing people with all the equipment and information needed to enjoy this

most delicious of hobbies. Carroll teaches cheesemaking workshops around the country for beginners and advanced hobbyists alike, leads cheesemaking tours to Europe, and is a founding member of the American Cheese Society. Find her online at cheesemaking.com. The late Phyllis Hobson is the author of several books, including *Raising a Calf for Beef and Tan your Hide!*

I see some reviewers who point out that the book is rather short on recipes for butter and yogurt, which merit mentions in the book's title, but only get one short recipe each in the book. This pamphlet is actually made of short excerpts from Ricki Carroll's book "Home Cheese Making". Carroll has one or two additional recipes in her full book for yogurt and butter, but her book is mostly focused on cheese (the words butter and yogurt don't appear anywhere on the front cover of her full book). So, if you're looking for lots of non-cheese dairy recipes, you should get something else. And, in my opinion, if you're looking to get into making cheeses at home, Carroll's full book is a better deal. Sure, this pamphlet is cheap, but it's also only 32 pages. The full book costs more, but you get almost 300 pages of recipes and information.

a good addition to my library on old school skills

this is more a brochure than book. nothing you can't find by googling.

for less than 4 dollars, the sourcing vegetable based rennet by picking plants (weeds) that are probably growing in the area of a half mile circle of your house is well worth the price. Several different cheese making methods are described with enough detail you can accomplish them the first time without major issues. with any new process, the more you actually do the method the better your results will be.

Not really a "how-to" book; more of an introduction.

not enough instruction to make any cheese

This is an excellent book for someone just starting to make cheese. It is full of easy to understand directions. Cheese making can be quite intimidating, this book will put you at ease and also challenge you to make different types of cheese.

This was not worth the money it was only a view pages and not very informative. I was very disappointed and the price was way too high for what was received.
