Rise Of The New World Order 2: The Awakening

Synopsis

As you know from the first book of this series, Rise of the New World Order: The Culling of Man, the same occult group of people who have been ruling over humanity for thousands of years continue to do so to this day. The reason they have been able to do this and do it consistently is that they worship Satan, who is called the "god of this world"™ in the Bible. This is all by design, and we're going to explore this fact and other pressing matters in my second book, The Awakening. This book is a wake-up call that the people running the planet not only aren't looking out for our best interests, we are actually under constant societal attack from them, as it's always been. Only now 'they' have modern-day technology to use against humanity.....It is always those who are Satan's most loyal followers that get to rule the world throughout history, just like it is today. The torch has been passed down the Luciferian family bloodlines for millennia all the way back to King Nimrod, the founder of the Babylonian Mystery Religion. King Nimrod is also arguably the Antichrist, as evidenced in my first book. This second book of the 'Rise of the New World Order' series concentrates on the Babylonian Mystery Religion's counterpart in evil known as Saturn worship. I will show you how Satan and the mythological god 'Saturn' from the Roman mythology are truly one and the same being. It is important for the brethren to know everything we can about Satan because he is exactly the puppet master of the 'New World Order'. This is a very deep subject that was put upon me to work through, and we are going to connect the dots of ancient history to formulate a focused image of who and what Satan really is. Information in this book that I'm basing my position about Satan on comes from the Bible, extra-Biblical sources such as the Book of Enoch, and the historical record of the ancient mythologies of empires gone by. I'm going to show you how the Bible shows the basis of what turned into all those ancient religions, which we call mythologies today. This is probably the most revealing book ever composed about Satan, I have found none like it in existence or I wouldn't have taken the trouble to construct it. The deception we live under is absolutely mind-boggling, how the people who run the world have been able to twist our reality using the power of Satan himself. Please read the book reviews for this thrilling new series of books here on [Amazon](#) and also [UK](#), and you will see that I am creating highly educational and important books for you to not only read, but to make others aware of their existence. The time for a mass-awakening of humanity is short and I need your help! I'm currently working on the third book, 'Rise of the New World Order 3: Falling Sky', and expect to have it done and out in 2018. Thanks for reading and thanks for your support! -Sentinel Jeff Hays

Customer Reviews

Now, while I'm not what you would call a religious person, far from it actually. I have delved into a few different religions, personally I think each has a small piece of the total truth. All that said, this book is awesome! There are things going on in this world, beyond our control really, behind closed doors (literally). Governments are being bought and paid for to do as they are told like puppets, and not for our benefit. If you wake up and see it with your own eyes you will see the signs, plain as day. If you want to know the what and the why I would suggest this book, it's another eye opener. His last book was very good as well. However, each to their own you know, if you don't want to know, then just go ahead and close your eyes and pretend all is well. Here... Have this cookie, before you know it, All will be right as rain again.

I just now ordered four of these books because a great and true brother of mine gave it to me too read and I learned a great deal more of the deceptions that I am long aware of from so many years of deep digging and study, I followed the word where we are told to seek with all our hearts and

mind to find the truth and let me tell you that is what it takes. Even though I put my entire life on the back burner to do this there is so much to still learn and find as I'm sure the writer of this book well knows. Just because you find one truth or two even we must never stop seeking because more is always being given to those with eyes to see and ears too hear as God permits on his time line of the unfolding events happening right now before our very eyes. I read the first book written by this author and thanks to his love and kindness I read it for free"thank you mr. Hays by the way" the first book gave great revelation to the fact that we do have a powerful enemy against God and his children and after reading this one it showed me things that I have missed and thus gave me greater light to the matter. None of us know it all but God has many of us working for his last days church awakening and mr hays is in no doubt one of his children. Thank you father for setting so many of your children to work on your great project of salvation and than you mr hays again for being a great part of our fathers work.I will be sharing this book with my friends and loved ones whom care to see the deception that is so clear if one will test the spirit of a mater rather than put it down because it is not in line with the traditions of men and our forefathers before us that are spreading a grave lie unbenounced to them. Please if you think you are saved test yourself critically to make sure you are not part of the whole world being deceived.Remember satan is a great master and inventor of deception with thousands of years of practice in his cult of children whom we are told clearly by our scriptures are rulers of the world and he has controll of all military and governments or kingdoms if you will.Be very very carefull my friends. This series of books here are one of the best tools I have found unless I write my own research in a book.Up for competition mr hays? Lol. Just kidding brother I'll stick to you doing the writing. Thanks again. Hope to see more work ahead as time is short. And your work helps those whom can't find the time to research nonstop and is invaluable for them saving them from having to dedicate every second of free time for years to find the things you worked so hard to find for whomever cares for truth.Oh also you are right as you stated in the book that we need to read it more than once. So I got my own copy for that and so I can check your work as you ask us to do so that we can help one another not make any grave mistakes. "Smart thinking" so I get it for that and also a reference.If I find anything I will be sure to let you know.

A worthwhile, revealing, and very interesting read on major changes & events taking place right in front of us. The majority of people are SHEEP ASLEEP and miss ALL of the important stuff, missing the most obvious, never taking time or effort to "connect-the-dots". We are all living in a world and time ruled by Satan, through our governments and leaders. We are also so occupied by life's distractions, and that's what The Plan counts on. The Apollo moon landing was a fake, 9/11 an

"inside job" created to begin a new chain of events already planned for generations, and there are even satanic symbols on another planet, photographed by NASA and in the book. This read was a challenge to my thinking, as the author predicted it would be. I nearly rated it down 1* because the first part of the book quoted scripture a lot, perhaps too much for me. Still, recommended.

This book was well researched. If you want the Truth this book is it. He covers so many issues. He's right on. He also made this read very readable. It sure educated me even more. When you get the Truth it does set you free. I have read both books and both of these brings out the reasons why we are living in the type of world we live in. It will empower your heart to change your world. We all need to know the Truth and the Author gives it just as pure as he can. Do your own research and you will see that what this Author is revealing is absolutely the Truth. Hats off to this Author that's willing to Fear God rather than man. This book was a wake up call to expose evil and eliminate it. The NWO is all about Death Destruction Power over the world and Slavery. Not what Bush has said. Our leaders who we think work for us work for the wealthy banister. He shares a lot of these facts in his book. You all need to listen to the heartbeat of this book. Spread the book around after you read it. Flo

Do you feel something is wrong on this earth? This is the second book we have read by this author, Jeff Hays. His first book, Rise of the New World Order: The Culling of Man, begins by letting us know through the years exactly why the world is in such turmoil. We have been lied to, programmed and manipulated by our governments, educational system and yes, even religions all of our life from the beginning of time. In this new book, he takes us on a journey painting the picture to why and who this world really belongs to. He goes into great depth about Satan and the hold he has on this earth. You may or may not agree with everything the author says, but you will walk away understanding how evil Satan truly is. He has far more followers in this world than most people could imagine. The New World Order who controls our world, worships Saturn/Satan. Educate yourself, it literally is a matter of life and death. The line is being drawn between good vs evil. The choice is yours....
