Customer Reviews

If there was a book that "The Aunts" from Practical Magic would give to any starting witch, this would be the one. I purchased it a few weeks back on , and wished it was out when I was starting out. And it's such a plus that this is in color and not in black and white. First, the book is divided into 3 parts. Part One Wiccan Foundations In this section a brief history on the Wiccan culture is given. Followed by symbols and nice summaries of: The four seasons, The four elements, The eight sabbats and the Esbats (Months w/ their specific moon) After that, the section touches based on rites and rituals of the religion and practice (they are quite short but also informative.) After the rites it goes into getting in touch with nature, respecting the gods, and responsibility for your deeds. Mid way section one, the book will cover (along with pics) ritual tools. Ex: Athame, Broom, BOS, Chalice, Wand... After which wrapping up the section, it will touch upon shopping, storing, and charging herbs. Kitchen witchery. Oils. Where to buy and charge crystals. Invoking the quarters. And calling upon Deities. Part Two Herbs, Oils, and Crystals If you are a green witch, this section will be for you, if you aren't however... it's still great to know about these things :) The herbs in this section can mostly be found in your kitchen cabinets, but I also covers... Lilac Mandrake, Lavender Feverfew, Holly Catnip, Sandalwood Rue, Patchouli Valerian, And much more. On each page of herbs there is a brief descriptor with history. It also covers average costs of the herb, Parts of the plant used, Associated element, Magical uses, What it blends well with, Substitutions... and more At the end of this chapter, crystals will be the center of attention. Jet Emerald Selenite, Quartz Obsidian Moonstone, Tiger's eye.... and more Descriptions will be given along with, Associated elements, Colors of the stone, Applications, And rituals and celebrations that the stone can be used in. If a beginning witch didn't know how to incorporate crystals into their everyday life, it also goes over that. Part Three Living Practice Lastly, the whole second half of this book is this section. Briefly the author touches bases upon the variety and types of spells. She gives recipes and instructions for... how to craft an oil, herbal bath, sachet, talisman, mojo back, floor

wash... for Love, Money, Luck, Banishing and more. All the spells above are provided with a recipe and incantation for them. Lastly the end will cover a section on meditation, grounding, rituals on how to honor a deity, cast a circle, and tool concentration. I hope this helps someone, this book was a great read and I hope it helps someone starting out out there :)

This is SOOOO SO wonderful! I've been interested in Wicca since childhood but never knew where to start. This book has been very helpful and the tone makes it sound like a dear friend speaking to you. I love it! Highly recommend for beginner witches!

I love this book so well put together and very easy to use. I am recommending this to all of my students and it has a home on my bookshelf of frequently used references books.

Great book, very informative

Good book and well written.

This is a fantastic book by the fabulous Patty Wiggington! I love the way she writes, so descriptively simple, written in a way that newbie's can understand & follow!

I just got this book and it's perfect!! Exactly how I need a Wiccan reference book to be. Very happy!

Really good a beginners guide. I'm not a beginner but I kind of wish the books I did read as a beginner were this simple.
