Howard G. Goldberg, a staff member of the New York Times since 1970, has been a wine writer there since 1984. He writes a Sunday feature called "Wine Under 20" and a Sunday column on Long Island wines in the paper's Long Island section. He is the American-auction columnist for Decanter magazine and the New York correspondent for decanter.com.

Good basic information, but very short on content. This book covers the very basics. It has few photos, not many original ideas, but does give basic information. Before starting construction of a wine cellar, I purchased a half dozen books on the subject. Of all the books I have seen, this is the most basic. There's nothing wrong with the book... it's just very basic.

I have gone through about a half dozen books on wine, tasting, and cellaring lately and this is one of the better ones. Well rounded and thorough, it will leave you with a good understanding of the basics and is written well enough to make it enjoyable and interesting to read. Give it a try and then pop the cork on a new wine to celebrate your new knowledge of this interesting hobby.

I was disappointed with this book. Overgeneralized suggestions with no real information on how to make the wine cellar i.e. the actual wood, plastic or whatever it is that makes the place to actually put the wine. I had been hoping for suggestions, ideas, photo's and sources for storage. Instead I got a rehash of information from other books.

Easy-to-read book about building and maintaining a wine cellar. Great tips and the author discusses things to consider that I would have never thought of. A nice book if you plan to build your own wine cellar.

Covered much more history etc than I was interested in. He does an excellent job and it is a decent read. It goes over the basics do's and don't if you're interested in constructing your own cellar. However, I found google search and wine refrig web sites to be far more productive especially Rosehill located in Canada. Great website for practical info.

This book is an easy read, perfect for relaxing by a warm fire while drinking a favorite glass of wine. Golberg's personal experiences and stories are entertaining while providing useful and educational information about wine, storage (cellaring), glassware, and general wine stuff. This casual book would be a great gift to a wine lover, or a 'carry on the airplane' book for yourself. Very nice font and paper that is easy on the eyes!
