## Customer Reviews

I absolutely love this coloring book! I work in a hospital so we all have kind of an odd humor here to just get through our nights, and I get SO MANY COMMENTS on it! I color when I can get a minute to sit town just as a stress reliever at work, and when I get home, and this one is just so much more fun than the nature scenes I normally color!! I really like the black background, which is awesome change than the white backgrounds, and it just makes it pop! I normally color with gel pens, so it really pops all the swear words, and I absolutely love giving my finished products out as "gifts" to my interesting co-workers. we all have a blast with it. I will be buying probably 10 more as gifts to all of them, and I just LOVE this book!!!! received this item at a discount in exchange for my honest unbiased review. I am not obligated to give a positive review nor would I if unless I believed it was.

I'm posting my opinion to help fellow customers make their decision when they are shopping here on . I'm just like you and always look at reviews before I ever purchase on , and that definitely helps you know you are purchasing the right product! The discount did not sway my opinion whatsoever. Thank you for reading!

Now that there are so many different coloring books for adults I knew I had to have one that really spoke to me, and this is one that I just could not help but get. I have the mouth of a sailor so I just had to have a book that reflected that and this one has diffidently reflected my attitude towards life. I love all the different phrases and different pages of coloring. Most of the designs are nice and intricate and they are pretty when colored. Some of the phrases are hard to see through the design until you start coloring them but they pop out in the end as long as you color the words a different color from the back ground. I love the fact that the pages are nice and thick and I do not have to worry about ripping them easily when coloring on them. I have had no problem with color transfer. I have not poked through any of the pages and I will say that I really do love this book. The binding is done very well and I have not had problems with it breaking down. This is the second book I have ordered from this series and I will say that I am very happy with these books! I have had the privilege of receiving this product at a discount price or for free.

Like to color? Have an off sense of humor? Not easily offended? Then this is the perfect book for you. It is my new favorite. It is awesome for those still immature adults who like to swear. The pages are all filled with your favorite swear words, and have a black background. I love that it has the black background since I'm one of those colorers who doesn't like to leave a lot uncolored. The description says 60pgs, but there are actually only 30 actual pages to color. I would be careful with markers, even though the pages are thicker, I used 2 different types and they both bled through. If you aren't sure I suggest trying on the last page for a test. It is great for pencils or gel pens. There is something oddly relaxing coloring in swear words. I received this product for free or at a discounted price in exchange for my honest review. I have used this product and this is my own personal experience and opinion. I only purchase items I need or want, so, I take product reviews seriously, as I often rely on them myself when I'm purchasing products.

The swear word coloring books seemed to be "all the rage" these days, so I went ahead and ordered this one. The designs in the book are more like elementary sketches with the absolute best one being a copy of the front cover. Some of the "swear" words are not actually swear words at all

and the others get rather repetitive. McNasty is a swear word? Pansy? Do people still use that? I could see bringing in some English swear words, but McNasty? Really? Then there's a design with a cat that is scary similar to Grumpy Cat. I paid full price for the book, though I was supposed to review it for a discount. Evidently there was not a discount. However, I had already accepted the review terms. I wouldn't pay for the book again, I'd spend the money on a ream of paper and do my own swear doodles.

This coloring book is great! There is something very therapeutic about coloring immature, X-rated messages while relaxing with a glass of wine in the evening. I love the black pages it really makes the colored pencil I used pop off the page and also keeps me from feeling obligated to color the whole background. The book is really well made with an easy to open binding that allows me to color all the way to the edges without any issues. The paper is high quality so much so that I feel I could easily use markers to color and would have no bleed through issues. Overall, this is adult coloring as it was meant to be a little off color but oh so relaxing! I did receive a discount on this item in exchange for my honest review. This is a hilarious coloring book. My mother hates when I cuss and is constantly criticizing me for it. I actually got this as a gift for her and it is probably the funniest, best coloring book I have ever seen. I actually love the variety inside the book of cuss words and also the number of pages. Its the perfect mix of hilarity and relaxation. Pansy is one of the tamest insults in the book but the title says it all. The designs are simple and fun. The page are thick enough so you do not have to worry about flimsy pages. The book is a riot and is a great gift for any adult who needs a giggle. I got this for a discounted rate for my honest review. Its fun, hilarious, and definitely a great gag gift too.
