ISO 799:2004, Ships And Marine Technology - Pilot Ladders

Synopsis

ISO 799:2004 specifies requirements for a ship's pilot ladder which is provided to enable a maritime pilot to embark and disembark a ship safely along a vertical portion of the ship's hull. It is applicable to merchant ships which embark and disembark maritime pilots with the ship underway. National maritime safety administrations are urged to accept ladders complying with ISO 799:2004 on their ships, as complying fully with the requirements of the 1974 International Convention for the Safety of Life at Sea (SOLAS), as amended.

Book Information

Paperback: 24 pages

Publisher: Multiple. Distributed through American National Standards Institute (ANSI) (August 23, 2007)

Language: English

ASIN: B000Y2TI66

Product Dimensions: 8.2 x 0.1 x 10.5 inches

Shipping Weight: 3.8 ounces (View shipping rates and policies)

Average Customer Review: Be the first to review this item

Best Sellers Rank: #1,074,669 in Books (See Top 100 in Books) #10 in Books > Engineering & Transportation > Engineering > Reference > American National Standards Institute (ANSI) Publications
