Announcing the most detailed, authoritative "how-to" book for conducting crime scene investigations!

I love the book! I used to read it in library and I want one hardcopy for my own collection. But the book sent me was a digital print copy, all images and figures are blurry. I have to asked a refund on it. Customer service is great, book is great, but ...here is a comparison between a library copy and the copy I received.

Very through discussion of the matter. Well written and easy to read.
