# Practical Criminal Evidence

## Synopsis

Written by a 30-year law enforcement veteran, this new look book takes a close focus at criminal evidence. The fresh approach shows the practical aspects of evidence collection and court admissibility as it effects police officers and criminal investigators. Designed to give an understanding of what evidence is, how it can be legally obtained, and how it is introduced at trial, Practical Criminal Evidence provides a great perspective for more effective law enforcement officers. Emphasizes real life situations that inform the reader of contemporary issues that face law enforcement officers today. Step-by-step approach on evidence collection, crime scene safety, search warrants and trial preparation. Extensive coverage on search warrants and an appendix with an actual state search warrant included. Serves as a desk reference for law enforcement professional throughout their careers.

## Customer Reviews

"Best discussion on grand jury activities I've ever seen in such a book for professionals other than law books." -- Prof. Ralph Garris, University of South Carolina  
"The author did a great job of explaining the exclusionary rule and how it was developed." -- Prof. Steve Christiansen, Green River Community College

Written by a 30-year law enforcement veteran, this new look book takes a close focus at criminal evidence. The fresh approach shows the practical aspects of evidence collection and court admissibility as it effects police officers and criminal investigators. Designed to give an

understanding of what evidence is, how it can be legally obtained, and how it is introduced at trial, Practical Criminal Evidence provides a great perspective for more effective law enforcement officers. Emphasizes real life situations that inform the reader of contemporary issues that face law enforcement officers today. Step-by-step approach on evidence collection, crime scene safety, search warrants and trial preparation. Extensive coverage on search warrants and an appendix with an actual state search warrant included. Serves as a desk reference for law enforcement professional throughout their careers.

Pros.-Decent format, short, and covers the basics of evidence handling decently well. Cons.-Overpriced, outdated, and not especially comprehensive. More than passable as a general reading book for those interested in the subject of criminal law, but not especially outstanding as far as being a tool for modern evidence handling. It fails to address new policy and law changes, as well as how to handle modern electronic devices.

This was bought for an elective course required for graduation. It is well detailed and provides knowledge about how the criminal court systems work. From criminal evidence information to informative case scenes that have happened through the course of history. This textbook will leave a person in awe and a better understanding of criminal prosecutions.

Great book, but pages were tearing out. The book does not hold completely.

Criminal Justice requirement and it was pretty much spot on. Had quite a few evidence courses and this was on par.

Great condition

The book was good. I enjoyed reading it, and it helped me get away with many a crime. Like the time I black mailed an insurance fraud investigator into helping me steal the hope diamond, and replaced it with tin foil. Then there was the time that I plotted to assassinate the prime minister of the USSR 2, but the whole end of the world thing on may 6th 2037 prevented that from ever happening.
