I like the book. The series is not where I'd expect to find a book of this type, at least not from this author? I would like a bigger book from this author, with a better index.

Nice and insightful read

thank you

Very useful information! I've learned so much about my dreams.

The good side is that this book gives detailed interpretations on three levels (physical, emotional, and spiritual) ; the bad side is that it is skimpy on the number of entries. There are lots of symbols that are left out.

I provided the information I needed to learn more about dreams and their meanings.

interesting

I keep this book handy and share it with many people! I love it for two reasons, 1) it's a good "how to" book for enhancing dream recall, and 2) it's a blast to speak with people about their dreams and check out the meanings. A must have for anyone curious about what their dreams really mean.
