# Memories Of Heaven: Children's Astounding Recollections Of The Time Before They Came To Earth

## Synopsis

Poet William Wordsworth expressed the idea that we gradually lose our intimate knowledge of heaven as we grow up, observing that "our birth is but a sleep and a forgetting" of our previous existence in Spirit. Dr. Wayne W. Dyer and co-author Dee Garnes had often talked about how the ones who know the most about God are those who have just recently been wrapped in the arms of the Divine: our infants and toddlers. In fact, Dee had an interaction with her own young son that convinced her of his acquaintance with our Source of being. Curious about this phenomenon, Wayne and Dee decided to issue an invitation to parents all over the globe to share their experiences. The overwhelming response they received prompted them to put together this book, which includes the most interesting and illuminating of these stories in which boys and girls speak about their remembrances from the time before they were born. Children share their dialogues with God, talk about long-deceased family members they knew while in the dimension of Spirit, verify past-life recollections, give evidence that they themselves had a hand in picking their own parents and the timing of their sojourn to Earth, and speak eloquently and accurately of a kind of Divine love that exists beyond this physical realm. This fascinating book encourages all of us, not just parents, to take a much more active role in communicating with our planet's new arrivals . . . and to realize that there is far more to this earthly experience than what we perceive with our five senses.

## Customer Reviews

Memories of Heaven Children's Astounding Recollections of the Time Before They Came to Earth By Dr. Wayne Dyer, Dianna (Dee) Hicks-Garnes Readers familiar with Dr. Wayne Dyer know he is laughing joyously from Heaven as his final book is released in the world; this book about Heaven. He loved hearing stories from children especially when they were spiritually motivated. This book is no different. His good friend and assistant Dee told him about a moment with her son regarding his memory of God and what came before he was born. That singular moment led to this compilation of stories of children from all over the world as their parents/grandparents recall similar moments of child-inspired insight. This book is a joyous celebration of the innocence and mystery of life. If you as a reader are looking for documented-factually tested scientific proof of an existence beyond this life, you will have to look elsewhere. If you already believe that there is existence prior and after this life, this book is a wonderful collection from people all over the world sharing their experiences. The stories are arranged in chapters such as Memories of Heaven, Memories of Choosing Parents, Memories of Family Reincarnations and Role Reversals, Memories of Spiritual Connections to Our Source, Mystical and Precognitive Wisdom, Invisible Friends and Spiritual Visitations, and Angel Stories. At the beginning of each chapter Wayne writes an introduction and anecdote that relates to that chapter. To read of the sincerity of these children is a precious gift for those needing to hear these heartfelt stories. It is a way to lighten the hearts of adults and give them that pause to feel the love and light from a child's heart. Wayne urges all adults to look at children as spiritual beings • not merely inexperienced humans. No one can claim to have more wisdom simply because of a chronological age and that wiser adults can learn much from the innocence of unfiltered youth. If everyone were to reclaim their non-judgmental innocence that we had as children and to return to the loving light that is childhood this world would be better for us all. Sometimes the immaturity of youth teaches so much more than the hardness of age. On August 30, 2015 Dr. Wayne Dyer had a heart attack during his sleep. His legacy lives on by all the teachings and ponderings he has left for the world to read. No other compensation was awarded.

there it is, Believe what you intuitively feel, it is true,

I agree with the author about children knowing about their past lives...I feel that we have been here more time than we can count or realise...

This was an eye opener that there truly is more to life-- and these innocent baby angels are sent to us. I'm currently pregnant with my first child, and to think that my Son may have selected me from heaven brings me to tears. I think this was a beautiful last message from Wayne Dyer (my favorite author) who will live on through his other wonderful books.

Dr. Dyer was amazing. This book is in my opinion one of his best. His commitment to help the masses understand the spiritual side of our world was an every second endeavor. His love of people and most especially children is most evident in this book. He tells the stories in a straightforward way without commentary. They are the children's stories. Dr. Wayne Dyer left an indelible mark on our world - for the better. We are all much better for having known him or even to read his books.

Simple, sweet stories from the mouths of babes.... this is comfort reading for anyone who has lost a loved one, and for those who have not, it is insight into the workings of our Universe. Whether you are an atheist, highly religious, or somewhere in between.... this book has something to offer and reminds us all that children are closer to Spirit and another kind of truth, and it behooves us to listen to their innocent wisdom. I will read this over and over, even though the actual writing is not always stellar, because the stories told ring true.

Very interesting. I have read and heard of many stories of children who are able to bring stories of heaven with them when they are born. How great a gift that we can all share in. I enjoyed this book immensely.

I enjoyed this book. I will now pass it along to my granddaughter who just had a baby boy.
