A Practical Guide To Appellate Advocacy (Coursebook Series)

Synopsis

Recognized by instructors nationwide as the book that shows students how to get from a blank page to a finished product, *A PRACTICAL GUIDE TO APPELLATE ADVOCACY* has been revised, refined, and updated for its Second Edition. This accessible paperback earned its success in the classroom by:

- providing a complete introduction to the techniques and process of writing appellate briefs
- presenting class-tested materials and ample illustrations that are both accessible and teachable
- emphasizing the process approach to writing, beginning with large-scale issues like content and organization, moving to smaller-scale issues like signals to the reader, and ending on the smallest-scale concerns of format and polishing methods
- using numerous annotated examples -- both good and bad -- of legal writing from briefs, with commentary on the point each example is illustrating
- including in the appendices four sample briefs with annotations that identify strengths of the brief and/or why the writer chose a particular technique
- teaching students how abstract formulas (IRAC, CREXAC, etc.) can be effective in legal writing by having them identify whether certain elements have been included in a document and giving concrete advice on how to use formulas
- encouraging students to critique their own work and improve their final draft by using the self-graded draft

The Second Edition is strengthened by:

- including format and function information about dispositive motion memos (such as motions to dismiss or for summary judgment), along with a sample motion memo
- refining the discussion of the use of authority to help students better understand what a citation means
- improving the discussion of CREXAC to facilitate easier comprehension of how to use formulas to write effectively
- adding the concept of 'user' to complement the concept of 'reader' and explaining the needs of both groups
- supplying more information on identifying a theme for the argument
- including tips on citing to web pages and citing to unpublished opinions

Customer Reviews

Book was good for the class.

Prompt delivery and good quality

I had to buy this book for class, but I was silly and got the wrong edition. However the chapters correlate well with the new edition.

This book was really helpful to me, especially by providing actual examples to illustrate concepts. Would recommend to law students.

This book covers the how to of writing legal memorandum for appellate cases. It has a chapter on research and then a step by step on how to write persuasively.

Wow, what a waste of time, money, and paper. I bought this book with great hesitancy because my legal writing professor required it. I read the first chapter and fell asleep. I don't know about you, but I don't think there is anything more boring and less productive than reading about writing. Just write and ask questions as you go. Anyhow, I pulled at A- on my paper without reading this book, so take that for what you will.
