Customer Reviews

John Kelsey is a journalist, an editor, and a writer who specializes in woodworking and furniture making. He is a former editor in chief for Fine Woodworking magazine, editorial director for Fox Chapel Publishing, and the author of several woodworking books, including Furniture Projects for the Deck and Lawn and Kid Crafts: Woodworking.

Great pictures and lots of them too accompanied by easy-to-follow instructions. I got a lot of great ideas I can hardly wait to try out. If you are a DIYer like me, you'll love this book!

I am not a mason. But I love great stone work and concrete work. This is a very informative and method instruction book. Concrete is easy to understand the process. I can make a check list and complete a project well. I produce a journeyman mason result. I am very much a self taught DIY guy. This book informs, explains and instructs well enough for me to produce a quality result. I think many interested parties could. If you are inept host a patio party. Get those with some skills to help and feed them. Then have a party on the patio or whatever. Take pics and post them. Make a memory and... ENJOY!
