# The Communist Manifesto (Penguin Classics)

## Synopsis

A rousing call to arms whose influence is still felt todayOriginally published on the eve of the 1848 European revolutions,Â The Communist ManifestoÂ is a condensed and incisive account of the worldview Marx and Engels developed during their hectic intellectual and political collaboration. Formulating the principles of dialectical materialism, they believed that labor creates wealth, hence capitalism is exploitive and antithetical to freedom.This new edition includes an extensive introduction by Gareth Stedman Jones, Britain's leading expert on Marx and Marxism, providing a complete course for students ofÂ The Communist Manifesto, and demonstrating not only the historical importance of the text, but also its place in the world today.For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

## Customer Reviews

"A spectre is haunting Europe," Karl Marx and Frederic Engels wrote in 1848, "the spectre of Communism." This new edition of The Communist Manifesto, commemorating the 150th anniversary of its publication, includes an introduction by renowned historian Eric Hobsbawm which

reminds us of the document's continued relevance. Marx and Engels's critique of capitalism and its deleterious effect on all aspects of life, from the increasing rift between the classes to the destruction of the nuclear family, has proven remarkably prescient. Their spectre, manifested in the Manifesto's vivid prose, continues to haunt the capitalist world, lingering as a ghostly apparition even after the collapse of those governments which claimed to be enacting its principles. --This text refers to an alternate Paperback edition.

May 1 to honor the 150th anniversary of the original publication of Marx and Engels's masterpiece with this quality, affordable hardcover. This edition contains a new introduction by historian Eric Hobsbawm, who insists that the work should be read not only as a great work of literature but that, 150 years later, it still has much to teach us for the next millennium. Copyright 1998 Reed Business Information, Inc. --This text refers to an alternate Paperback edition.

It is an English version of the Marx & Engels short manifesto.

I felt Marx repeated a lot. Good read. Took me forever because I couldn't concentrate but still interesting. Had to write a paper for History so if you are looking for an easy copy to help you this is it!

Used for class and found it helpful where it relates to the course I was taking.

A must have for history buffs, with a well written contextualizing introduction. The only downside is that the illustrations dont seem to zoom properly on iphone.

Very usefull

Such fast shipping! Great book.

Definitely a book that most should read..

I found the tone of this translation more modern and accessible than the pompous screed I had expected. There's nothing really new here for anyone who already thinks of politics in terms of the "haves and the have-nots," but it's interesting to look backward from the perspective of the present

and see what the socialists expected to happen, back when socialism as a governing philosophy had never been tried.
