Food Law And Regulation For Non-Lawyers: A US Perspective (Food Science Text Series)

Synopsis

The book offers a succinct overview of key topics and core concepts for food scientists, quality managers, and others who need to understand the regulation of food and dietary supplements in the U.S. It was designed and modeled after a six-week introduction to food law course currently taught at Northeastern University, and serves as a practical tool for regulatory professionals. The book includes a chapter on each major topic, with summations of the legislative history and general legal landscape. Each chapter focuses the reader on major and emerging issues encountered by facilities. A comparative law section at the end of every chapter offers readers an ability to view alternative methods of regulation and enforcement. This design is unique and allows students and working professionals alike to understand core concepts and the practical application of the law to their work. Using a modified casebook method approach, the book also serves as a practical tool for regulatory professionals.

Customer Reviews

“Food Law and Regulation for Non-Lawyers is a phenomenal textbook introducing students to the fundamentals of U.S. food law, its associated legislations and local enforcement agencies. Its contents is aptly and functionally structured to target non-lawyers, both American food practitioners, and academics intrigued by the legal functions of the industry. | The textbook contains an abundance of highly valuable information. | The clear organization and presentation of information in various diagrams in the textbook is worth a mention.” • (Impeccable Business,
