Customer Reviews

To the buyer that was unsatisfied with some of the intricate designs in this book, I would like to remind them this is an ADULT coloring book catered to fans like myself that like a wee bit of a challenge when we color. The covers included in this book span the whole history of the Emerald Archer up until New 52. The covers are great and while some are geared obviously to the advanced colorists that have been enjoying these books, there are also pages included kids will love. So far I have this and The Flash book from this line but plan on completing my collection and getting them all. Highly recommended to the Adult Coloring and DC Comics fans.

This book is fantastic. The negative reviews are from people who don't know what an 'adult' colouring book is. All of the pictures are incredible, and there are some that are simpler as well as complex ones. If you're a Green Arrow fan and a fan of adult colouring, definitely a must have. I'll

attach a pic of one of the simpler and more intricate pictures so you can get an idea. But seriously awesome book. Can't wait to colour it up!

Its the Green Arrow. What's not to love?

Was a gift. He was thrilled with it. $\hat{A} \hat{A} \hat{A}$,

Loved it!

Not at all what I had hoped. So many of the pictures had quite a few areas "shaded" in black. And the areas that were available to color were not user friendly...too complex. I'll keep looking for a more enjoyable version.

Very disappointed. Nothing like the hush batman coloring book. Most pages are very juvenile. Not adult at all.

Why all the minute drawing details in it ? Too much for me.
