Story-gami Kit: Create Origami Using Folding Stories: Kit With Origami Book, 18 Fun Projects, 80 High-Quality Origami Papers And Instructional DVD

Synopsis

Act out cute stories while you fold origami projects with this unique and easy origami kit. The joy in folding origami is often found in the deceptively simple magic of transforming a single piece of paper into a recognizable object. All too often, the steps it takes to transform paper into origami designs can be frustrating. Story-gami Kit is an innovative new paper craft kit from world renowned origami artists, Michael G. LaFosse and Richard L. Alexander who have created entire storylines around characters Righty and Lefty and their adventures climbing mountains, going on boat rides, and hanging out with bunnies. Each story's end results in a finished piece of origami, like an elegant butterfly, a jumping frog or a flapping bird and allowing anyone to discover the magic in creating something beautiful out of a simple piece of paper. Through the mnemonic of storytelling, LaFosse and Alexander make origami paper folding easy for those with any level of skill and a whole lot of fun. The unique method of storytelling makes this a great origami-for-kids kit and an excellent way to learn origami. This origami kit includes: Full color, 80-page origami book Clear step-by-step instruction and diagrams 18 fun origami projects A 90 minute instructional DVD 80 sheets of durable origami folding papers A variety of different colors Story-gami Kit is unlike any other origami kit. Children will love acting out the stories in the book as they fold their new origami creations! Customer Reviews

"Storygami comes in a lovely box that turns into awesome storage for papers and booklet.

Moreover, the presence of a video and story immediately brings down anxiety as if it wasn't all about the beauty and precise folds because that is why kids shy away from origami." â "Toys Are Tools blog" I have always been fascinated by the art of Origami. I am also not that great at it...until now. I am still not an expert, but with Story-gami, I was able to share this fun and exciting art form with my daughter. Story-gami is a fantastic way to not only learn the art, but tell a story." â "Product Mommy blog

Story-gami is the art of teaching origami using clever and amusing stories to accompany the folding sequences. Story-gami is both instructional and entertaining, and for all ages.Â Anyone wishing to teach origami in the classroom is encouraged to get this kit. Once students are introduced to Story-gami, they want to write their own! This collection contains the best and most requested of my original story-gami performances.Â Every element of the story is linked to a folding step, making the learning of origami models fun and memorizing a snap.Â The kit is a great value. It comes in a handsome, sturdy box; and it includes a nice assortment of folding paper. It makes an impressive gift. I have been writing and performing "Story-gami" programs in hundreds of schools, libraries, and museums, for over thirty years. I am often asked: "Is there a book with your wonderful origami stories?" Thanks to Tuttle Publishing, now there is. I am very grateful, and they did a wonderful job on this kit. A video DVD is included, which fully demonstrates the folding method for each and every project while telling the accompanying story. The booklet includes clear diagrams and the full text of each story.

I love this kit: in a big box, you have a 80 pages booklet, a 90 minutes DVD and sheets. You have traditional designs like: penguin, sailboat, tabletop racing duck, balloon, bunny rabbit. Or designs from traditional design elements or variation: tulip plant with blossom, fortune cookies box. But also designs by Florence Temko (heart); Michael G. LaFosse (owl bookmark, bookmark/stacked over logan, Freddie the jumping astrofrog, art deco wing, fox mask, scary skull); Samuel Randlett (Randlett's flapping bird); Akira Yoshizawa (Yoshizawa's swallowtail butterfly); Richard L. Alexander (fiesta box, Kanji the dog). One with a rhythmic story-gami by Richard L. Alexander: art deco wing. Many of the story-gamis are written by Michael G. LaFosse. Tabletop racing duck, balloon, bunny rabbit, Yoshizawa's swallowtail butterfly, scary skull and owl bookmark are written also by Richard L. Alexander. Freddie the jumping astrofrog, fiesta box, Kanji the dog and fox mask are written only by Richard L. Alexander. I love the stories. The sheets aren't true squares and if you

want to use them with another designs, it will be difficult because the sheets aren't enough thin.

I am an art teacher and I love this DVD to teach children origami! Students use it independently or I use it for a substitute plan that the kids love when I am out of the classroom. However, now that I have switched schools, I only have access to Mac computers without DVD ports! So I would love it if there was a downloadable version so I could continue to use this wonderful teaching tool!

Wonderful storytelling and paper folding activity with my grandchildren. What a helpful video too.

Wonderful just what I expected and received.

My 7 year old LOVES this kit! Very easy for him to follow along. Some of the other origami books lost his interest because the instructions weren't age appropriate for children. This DVD, book & entire kit are adorable!

I think this the best thing ever and it's totally the cutest thing ever and I love it and I think everyone should have one of there own origami books like this one.

Love this idea! I've already read most of the stories and cannot wait to start sharing with children. I ordered the Kindle version but I couldn't figure out how to download the video. So I bought a hard copy .

very cool and fun
