Detail In Contemporary Glass Architecture

Synopsis

Following the success of the earlier titles in this series, *Detail in Contemporary Glass Architecture* provides analysis of both the technical and the aesthetic importance of details in modern glass architecture. Featuring the work of renowned architects from around the world, this book presents 50 of the most recently completed and influential glass designs for residential, public and commercial architecture. Each project is presented with colour photographs, site plans and sections and elevations, as well as numerous construction details. There is also a descriptive text, detailed captions and in-depth information for each project, including the location, client, architectural project team, main consultants and contractors. The projects are presented in clear and concise layouts over four pages. All of the drawings are styled in the same consistent way and presented at standard architectural scales to allow for easy comparison. There is also a CD-ROM which contains all the drawings as printed in the book, in both EPS and DWG (generic CAD) formats. In addition the book features an index of architects that includes the name, address and all contact details for each architect. *Detail in Contemporary Glass Architecture* is an excellent reference work for practising architects as well as architecture and design students.

Book Information

Series: Detail

Hardcover: 224 pages

Publisher: Laurence King Publishing; Har/Cdr edition (September 21, 2011)

Language: English

ISBN-10: 1856697401

ISBN-13: 978-1856697408

Product Dimensions: 10.2 x 1 x 11.8 inches

Shipping Weight: 3.6 pounds (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 stars 5 customer reviews

Best Sellers Rank: #337,873 in Books (See Top 100 in Books) #120 in Books > Engineering & Transportation > Engineering > Reference > Architecture > Methods & Materials #522 in Books > Arts & Photography > Architecture > History #1970 in Books > Biographies & Memoirs > Arts & Literature > Authors

Virginia McLeod has worked for a number of private practices in London and was also the editor of *The Phaidon Atlas of Contemporary World Architecture*. She currently works as a freelance writer

and editor, specializing in contemporary architecture. She is the author of *Detail in Contemporary Residential Architecture*, *Detail in Contemporary Landscape Architecture*, *Detail in Contemporary Kitchen Design*, *Detail in Contemporary Bathroom Design*, *Detail in Contemporary Timber Architecture*, and *Encyclopedia of Detail in Contemporary Residential Architecture*

As a second year arch student this range of books are really helpful because they have nicely photographed buildings showing what the final product finishes like (+ they have selected really cool buildings to study as well!) and then sweet details of how they actually construct the buildings. Great books to get inspired by with the technical side to help you realise your designs. PLUS they come with a CD with all the DWGs of the images in the book!

amazing detailed drawings of current innovative glass in architecture. A must have for any glass enthusiast or those in the architectural field concerned with glass.

All the drawings are highly detailed documented and the works displayed here are good examples in different styles including lots of master works.

i wish i had this book before, it should be a required book for all architecture schools!... MUST GET now!

Lots of good examples, but not very detailed: the book show how the glazing fits into the overall cladding system but on a pretty macro scale. The views are too zoomed out to be true construction "details". Still good for inspiration, but not quite what you want if you're trying to understand exactly how the pieces fit together.
