

Synopsis

For a myriad of reasons the criminal justice system has become the de facto mental health system. This book explores how and why this is the case. Sensationalized cases often drive criminal justice policies that can sometimes be impulsively enacted and misguided. While there are chapters that examine competency, insanity, and inpatient and outpatient commitment, the primary focus of the book is on the bulk of encounters that clog the criminal justice system with persons with mental illnesses (pwmi). Criminal justice practitioners are often ill-equipped for dealing with pwmi in crises. However, via application of therapeutic jurisprudence principles some agencies are better preparing their employees for such encounters and attempting to stop the inhumane and costly recycling of pwmi through the criminal justice system. Coverage runs the gamut from deinstitutionalization, to specialized law enforcement responses, to mental health courts, to jails and prisons, to discharge planning, diversion, and reentry. Also, criminal justice practitioners in their own words provide insight into and examples of the interface between the mental health and criminal justice systems. Throughout the book the balance between maintaining public safety and preserving civil liberties is examined as the state's police power and *parens patriae* roles are considered. Reasoned, collaborative approaches for influencing and informing policies that are often driven by crises are discussed; this book also reflects more psychological underpinnings than the 1st edition, as one of the co-authors new to this edition is a forensic clinical psychologist.

Book Information

Paperback: 570 pages

Publisher: Carolina Academic Press; Second Edition edition (June 18, 2013)

Language: English

ISBN-10: 1611630398

Customer Reviews

Risdon Slate is a Professor of Criminology at Florida Southern College. Jacqueline K. Buffington-Vollum is an assistant professor at the University of Minnesota Duluth, a licensed clinical psychologist in private practice performing forensic evaluations, and conducts trainings and research on mental health-criminal justice collaboration in jails. Wesley Johnson is a Professor and Doctoral Program Director of the School of Criminal Justice at the University of Southern Mississippi.

I've enjoyed how well written this text is and provides relevant & informative examples while maintaining my interest.

I am actually enjoying this text. Most of my college professors choose texts that are boring but I have no problem reading this one.

Very easy to read and understand. I will be using this as a reference in days to come.

Great price and product

This book was a read for a Master's class in CJ. I must say, it was a great book and I would recommend it even outside of that purpose.

Required reading in a masters class -- will read again!!

Seems like a great book. Just for class tho.

First time buying a book off . Great book overall and was in great conditions! It was exactly what I was expecting to buy. Thank your so much!
