## Customer Reviews

I will purchase more books by Heather Valentin! Love her whimsy and the drawings are very nice!

cute drawings. good paper

Cute, cute coloring book! I love almost every page. I will purchase more of her work!

Great pictures to color

As a fan of Sherri Baldy, I've debated about buying one of Valentin's books for a bit. I like fairies and elves so when I saw this one, I thought it was a good one to try. I want to be really clear that I

respect all artists, including Valentin, and my reason for leaving this review is that I wished someone would have left one like it for me. I'm really disappointed with this book. The line weight is all over the place. One picture is drawn with thick black lines, others with very thin-to-scratchy lines. Many lines don't connect and the hair is all open ended lines or curly loops/poofs. Because many of the lines don't connect and most of the backgrounds are a jumble, I don't know what to begin with. If the book were twice as big it would be a great kid's coloring book because of the playful creatures but this was just not for me.

Heather !! You have outdone your self with this one ! It is just darling ! Love it so much !

This book has very beautiful pictures. The artist is very interesting and has gorgeous pictures in her books to color.

I absolutely love the Lacy Sunshine books. Heather captures the personality of the characters so well. They are adorable and so much fun to color. Space is given in the background to add your own design to give it your special touch. Single sided pages, non perforated on medium weight paper as provided by publisher. Recommend using backers for markers or anything that may bleed through. A fun coloring book for all ages.
