# Tropical & Garden Flower Identification

## Synopsis

Tropical & Garden Flower Identification is an overall photographic resource guide for the identification and growing of tropical plants and flowers in the greater West Indies: Caribbean, Bahamas, Central America, Florida & South Georgia. More than 500 stunning photographs allow easy identification by everyone, with plants arranged in colour coded common-sense chapters, English & Spanish common names, weights and measures in standard & metric, and all scientific taxonomy. Every plant gets an overall and close-up image of the flower for ID purposes, plus information on the plant, how to grow guide, and any dangers or legalities. Over 530 photos. Over 270 plant species. Full indexes. Pages are wipeable and each book has a protective plastic sleeve wallet. Handy travel and garden size - 6x9. IPPY AWARD WINNER - Silver Medal - Best Non-Fiction SE USA 2007. ERIC HOFFER AWARD - Gold Medal - Best Home & Garden USA 2009.

## Customer Reviews

It is a lovely book, and my wife thinks it is one of the best flower books she has ever seen. She seems somehow to have claimed it as her own Adrian Koopman --Adrian Koopman - Professor Zulu Studies - South Africa.Hello Graeme, I have received the copies of your book. It is stunningly beautiful! The photos are fabulous and text is simple and direct. I really like it and it will do very well in the store. Thank you for the signed copy-I will treasure it. Cheers, Linda. Hemingway House, Key WestI just received my copy of the book. I am overwhelmed. It is stunning and will be my newest constant companion reference. I absolutely love it. Congrats to you and Davie for getting it so right. I cant wait till the other copies arrive and I can see the faces of my friends as they open

theirs. --Helen - owner Parrot Tree Plantation & Nursery - Honduras! just received this magnificent book - bravo to you! Wow - it is gorgeous! Beautiful pictures, lovely design. Plus what an amazing and interesting read and so relaxing in this crazy world. Well done. --Sharon - owner Loupe Media - NY. Incredible, just incredible. Every botanic garden and bookstore in the South must stock this book. Not only is it beautiful and informative but it's personal. After reading your acknowledgements and David's piece, the reader has a sense of who the writer is. Your name and the book need to be all over Google. --Carol - Image Resources - Chicago

I spent over 2 years researching and writing the book, and over 20 years photographing the adventure - which it has been! Ooh the stories I could tell yea, but me palate is thus parched and in dire need of a whiskey or home brew!

Huge help identifying a lot of the beautiful plants seen here in west central Florida. Many are escapees from cultivation, some are offered at local sales without identifiers, some from seeds donated by passing birds. This helps tremendously in deciding which to incorporate and which to admire from afar. Had checked this book out so many times from the local library, just decided to buy one. Glad we found this seller! Arrived promptly in excellent condition and fair price.

It helps to identify almost all of the plants and flowers around me here in Naples, Florida! It's expensive, but the photos are great, and is very educational to me. With the help of this book, I feel like a "native" now being able to name all vegetation near where I live!

My wife loves this book. It was recommended by a friend who does landscaping in the tropics and we are very happy with the quality of the book and contents.

Good reference for interest

I got this as a present for my Dad at his request. The book is well written and well laid out. Its full of information and lots of lovely coloured photographs. Its a bit pricey but for the true flower/garden enthusiast, they will definitely appreciate its content.

It is a useful reference book, although a bit basic. I use it as an initial approach and then look forward for more detailed and complete information in another sources (internet, for example).

An outstanding & utterly professional ID book on tropical flowers and plants. Well researched and written. The photographs are beautiful & truly amazing. The 2007 Silver Medal for Regional Non Fiction awarded by IPPY in New York is well deserved.
