Customer Reviews

David J. Bilinsky is a practice management advisor for the Law Society of British Columbia. He is a contributing author and the editor for Law Technology News. He lives in Vancouver, British Columbia, Canada.

Very quick & easy read. I have enjoyed all the helpful tips the book provides. I am beginning to learn to enjoy using Amicus but it is still a process and will take time. This book has provided me more help and a better understanding of the software than all the manuals, which were provided and/or available to download. Yes I am one of those who actually read them but Amicus has not done itself any favors with these "how to get started" type manuals. Most likely this is done on purpose to encourage you and your business to call them for all the help you want for a very expensive fee. So I thank you for taking the time to actually breaking it down into simple, easy to follow, and logical reasons to bond with Amicus. Please let me know if you have any additional books or helpful guides relating to Amicus because I am more than interested in learning even more about Amicus and making my life easier and far more organized. Thank you again for a wonderful and a must have

book for anyone at any stage of learning about Amicus and what it can do for you and your practice.

Amicus Attorney in One Hour for Lawyers is an excellent learning tool for Amicus Attorney case management software. With the help of this book, you can start organizing your legal practice in no time. The book contains step by step instructions for creating contacts, matters, calendar events and to do's. The book also takes you through the day in the life of an automated lawyer so that you can see how each of the features of Amicus Attorney will work in your life. This book is helpful for the start up process with Amicus Attorney but is also useful when introducing new staff members or lawyers to the way your office uses the software.
