Customer Reviews

Timothy Millington is a surgical resident at a hospital in Boston. Despite his credentials, he hopes no one will treat what he says in this book as medical advice and also wishes to stress that he would never actually try that thermometer trick on one of his patients. Mary Millington is a science journalist. She has no relation to the porn star of the same name.

great graduation gift for a student going to medical school! expected more in the box but overall was a nice gift

I like this gift a lot. I didn't open it, but I was suprised at how big it was. I thought it was the size of an Altoid box, but it is more the size of a couple decks of cards. I'm sure the receiptient will enjoy the humor. Thanks!

Best present EVER! My friends and I have read through this and laughed till we cried! I may have to buy a few more for future gifts!

Another fun gift

I gave this to my son, who is going to med school, as a stocking stuffer at Christmas, and he thought that it was pretty cool. He was excited not to have to attend school eight more years.

Bought this for a soon to be med student. He got a real kick out of it! It actually has some useful information in it. I would highly recommend!

Sisters both in med school loved this gift and many people enjoyed the fun in the presentation of the gift.

I got this as part of a Christmas present for my boyfriend who will be going to PA school. He loved it! It's a just-right mixture of silly and real facts to make a nice little gift!
