Customer Reviews

This updated, expanded edition provides inspiring ideas for making the Mid-Atlantic home landscape more attractive and functional. Starting with the 200 best plants that thrive in the region, area landscape professionals created 46 outdoor design concepts readers can work with. More than 430 color photographs and drawings complement the easy-to-follow instructions for caring for and installing plants, paths, patios, ponds, and arbors. DE, Long Island, MD, NJ, PA, VA, WV --This text refers to an out of print or unavailable edition of this title.

• 46 designs created by landscape professionals specifically for the Mid-Atlantic region • featuring creative solutions for entries, foundation plantings, patios, steep slopes, and more • Descriptions of more than 200 plants picked for your region, plus all you need to know to plant and maintain them • Step-by-step instructions for building structures, such as paths, patios, ponds, walls, fences,

arbors, and trellises • Approximately 400 full-color photos and illustrations • Praise for the First Edition • “... like having a team of professional garden designers on hand.” • “Country Living Gardener • “... you’ll turn to these beautifully rendered design possibilities again and again.” • Elanore Lewis, *Woman’s Day Garden Planner & Practical Guide* • “This idea-filled book takes the guesswork out of landscaping so you can focus on the fun. Designs that work, great plants you can find, accurate instructions, and detailed drawings will help you succeed.” • Nancy Beaubaire, former Editor *Fine Gardening* and *Country Living Gardener* • “The Home Landscaping series takes the fear out of gardening by skillfully combining a wide range of attractive, dependable plants with clear, concise information on the techniques of gardening and easy-to-follow plans.” • Thomas Fischer, Executive Editor, *Horticulture*

The whole book contains nothing but very staid, mostly all green landscaping plants and trees. I only found a few bright pages with nicely flowering plants and trees ideas for landscaping. It seems like not much imagination was used in the plant selections. I think that *Better Homes and Garden* does a better job of giving landscaping ideas.

I owned the previous edition of this book, and this updated version is even better than the original. The illustrations are particularly useful: what a specific garden would look like when just planted, 5 years later, and 15 years later--something that many people have difficulty envisioning. The book also devotes several pages each to specific situations, such as different treatments for a roadside mailbox, creating a seating area, and planning for a narrow space between a house and a fence. There are also specific instructions (and step-by-step illustrations) for creating walkways, patios, edging, and of course all shapes and sizes of garden beds. Species of recommended plants and trees are given, as well as information as to what soil, light, and water conditions work best for all plants mentioned. This book is useful not only in the very first stages of landscaping, but also in latter years, when other types of maintenance or treatments are needed.

Home Landscaping has given me a plethora of insight on gardening in Maryland. I’m excited about Spring 2016!

Great tips and plans for successful, attractive gardening.

It was just what I was looking for. Great landscaping ideas and it gives the plants to buy which

makes it super easy.

Very helpful designs for creating interesting landscapes. All plants are readily available in Midatlantic area. Grid patterns make spacing easy.

This book has several designs from major designers familiar with the region. I wish it had more plants in the plant section, but that is a minor concern.

Great book/ learned alot and my yard looks fantastic!!
